RISK FACTORS

1. RISKS DERIVING FROM THE LEGAL STATUS AND BUSINESS OF THE ISSUER.

1.1 Nature of the Fund and obligations of the Sociedad Gestora

The Fund will constitute a separate fund without legal status that, pursuant to Royal Decree 926/1998, of 14 May, regulating asset securitisation funds and securitisation fund managers (the "**Royal Decree** 926/1998"), is managed by a management company (hereinafter "Sociedad Gestora"). The Fund will only be liable for its obligations vis-à-vis its creditors with its assets.

The Sociedad Gestora will perform for the Fund those duties attributed to it in Royal Decree 926/1998, as well as safeguarding the interests of the Bondholders as the manager of third party funds, without there being any syndicate of Bondholders. Therefore the capacity to defend the Bondholders' interests depends on the means and resources of the Sociedad Gestora.

1.2 Mandatory substitution of the Sociedad Gestora

In accordance with article 19 of Royal Decree 926/1998, if the Sociedad Gestora is declared insolvent, without prejudice to the effects of such insolvency as described below, it will find another sociedad gestora to substitute it. Whenever in the circumstances envisaged 4 months have elapsed since the event requiring the substitution occurs and a new sociedad gestora that is prepared to take over the management has not been found, the Fund will be liquidated early and the securities it has issued will be redeemed, in accordance with the provisions of the Articles of Incorporation and this Prospectus.

1.3 Insolvency of the Sociedad Gestora

The insolvency of any of the parties involved (whether it be IBERCAJA, the Sociedad Gestora or any other counterparty of the Fund) could affect their contractual relations with the Fund as provided in the Ley Concursal 22/2003 of 9 July (Spanish Insolvency Act) (the "Ley Concursal").

In accordance with Royal Decree 926/1998, if the Sociedad Gestora is declared insolvent, it will find another sociedad gestora to substitute it.

Notwithstanding the foregoing, in the event of the insolvency of the Sociedad Gestora, any assets of the Fund that are in the possession of the Sociedad Gestora and with respect whereto the latter has no right of use, surety or retention-except for money due to its fungible nature- and that form part of the latter's assets will be construed as belonging to the Fund, and the receivers in bankruptcy must deliver them at the Fund's request. Due to the nature of the asset securitisation operation in question, and except in the event of a breach by the parties, no cash amounts will become part of the assets of the Sociedad Gestora because the amounts that constitute the revenues of the Fund must be deposited in the accounts opened on behalf of the Fund (Reinvestment Account, Treasury Account, and there may also be a Surplus Account) by the Sociedad Gestora (which is involved in opening such accounts not only as the agent of the Fund, but as its legal representative. Therefore the Fund would be entitled to absolute separation in this respect, in the terms set forth in articles 80 and 81 of the Ley Concursal.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May8, 2007.

Not for distribution in US or to US persons.

In the event of the insolvency of IBERCAJA, the issue and sale of the Participations and the Certificates may be returned only if an action for such return is pursued in which fraud is demonstrated to have existed in that issue and assignment in accordance with the provisions of the paragraph 4 of the Fifth Additional Provision of Ley 3/1994.

In the event that IBERCAJA is declared insolvent under the Ley Concursal, the Fund, acting through the Sociedad Gestora, will be entitled to separation with respect to the Multiple Securities, in the terms set forth in articles 80 and 81 of the Ley Concursal. Furthermore the Fund, acting through its Sociedad Gestora, will be entitled to secure from IBERCAJA the amounts derived from the Participations and the Certificates, because such amounts will be construed as the property of the Fund and, therefore, must be transferred to the Sociedad Gestora on behalf of the Fund. Nevertheless, it might not be possible to exercise such separation right with respect to the funds handled by the IBERCAJA, for the account and pursuant to the orders of the Fund, in its function of managing the collection of the Mortgage Loans and with respect to the money on deposit in the Reinvestment Account opened with IBERCAJA, in both cases as at the date the insolvency was declared, due to the fungible nature of money and the consequent asset confusion of assets. The mechanisms available for mitigating such risk are described in sections 3.4.4.1, 3.4.5 and 3.7.1.2. of the Additional Building Block.

1.4 Restricted actions against the Sociedad Gestora

The Bondholders and remaining creditors of the Fund will have no recourse against the Sociedad Gestora, other than from non-performance of its duties or non-compliance with the provisions of Articles of Incorporation and this Prospectus.

1.5 Information sourced from third parties

The Sociedad Gestora, acting for and on behalf of the Fund, will enter into contracts with third parties for the provision of services in relation to the Bonds and will enter into certain contracts in order to consolidate the financial structure of the Fund. These include the Participation and Certificate servicing service, the Initial Expenses Loan Contract, the Subordinated Loan Contract, the Interest Swap Agreement, the Interest Rate Cap Agreement, the Financial Services Contracts, the Guaranteed Interest Rate Deposit Contract (Reinvestment Account) and the Bond Issue Management, Underwriting and Placement Contract.

The Bondholders' interests could be impaired if any of the aforementioned parties breaches the obligations acquired under any of the aforementioned contracts or agreements.

2. RISK DERIVED FROM THE SECURITIES

2.1 Liquidity

There is no guarantee that a minimum volume or frequency of Bond transactions will be forthcoming in the market.

There is no commitment that any entity will intervene in the secondary market, providing liquidity to the Bonds by offering itself as counterparty.

Furthermore, under no circumstances will the Fund be able to repurchase the Bonds from their holders, although the Bonds can be redeemed early in full in the case of early liquidation, under the terms established in section 4.4.3 of the Registration Document.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May8, 2007.

Not for distribution in US or to US persons.

2.2 Yield of the Bonds

The calculation of the internal rate of return (IRR) for the holder of a Bond that is stipulated in section 4.10 of the Securities Note, is subject, to future market interest rates, given the floating nature of the Nominal Interest Rate of the Bonds of each Series.

2.3 Term of the Bonds

The calculation of the average life and the term of the Bonds of each Series mentioned in section 4.10 of the Securities Note is subject, inter alia, to Mortgage Loan early redemption and default rate hypotheses that might not be fulfilled. Fulfillment of the early redemption rate is influenced by a variety of demographic, economic and social factors, such as seasonality, market interest rates, the employment and financial situation of the Mortgagors and the general state of the economy, that make this unpredictable.

2.4 Default interest

Under no circumstances will the delay of the payment of interest or repayment of principal to the Bondholders give rise to accrual of default interest in their favour.

2.5 Subordination of the Bonds

According to the structure of the transaction, the Bonds of some Series are subordinated to or rank after the Bonds of other Series in terms of the payment of the principal and interest. This provides protection for the Bonds of the non-subordinated Series. There is no certainty that these subordination or postponement rules will protect the holders of the Bonds of the non-subordinated or non-postponed Series from the risk of total loss.

The rules of subordination between the different Series of Bonds are established in the Payment Priority Order and in the Fund Liquidation Payment Priority Order set forth in sections 3.4.6.2. and 3.4.6.3., respectively, of the Additional Building Block.

2.6 Deferral of interest

According to this Prospectus and the other additional documentation regarding the Bonds, the payment of interest of the Series B, C and D Bonds will be deferred in the circumstances set forth in section 3.4.6.2.2 of the Additional Building Block. The Class A Bonds are not subject to these deferral rules.

2.7 Rating of the Bonds

The credit risk of the Bonds issued by the Fund has been rated by the following rating agencies: Moody's Investors Service España, S.A. and Standard & Poor's España, S.A.

The final ratings may be revised, suspended or withdrawn at any time by the rating agencies, depending on any information that comes to their knowledge.

These ratings do not constitute and, therefore, could not in any way be interpreted as an invitation, recommendation or solicitation for investors to proceed to carry out any type of transaction with the Bonds and, in particular, to acquire, retain, encumber or sell such Bonds.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May8, 2007.

Not for distribution in US or to US persons.

The non-confirmation before the start of the Subscription Period of the provisional ratings assigned to the Bonds by the Rating Agencies will be construed as grounds for termination of the Incorporation of the Fund and of the Bond Issue.

3. RISKS DERIVED FROM THE ASSETS BACKING THE ISSUE

3.1 Risk of default on the Mortgage Loans

The Holders of the Bonds issued by the Fund will bear the risk of default on the Mortgage Loans pooled in the Fund through the issue of the Participations and the Certificates, always taking into account the protection offered by the credit enhancement mechanisms referred to in the Additional Building Block.

The Seller will not assume any responsibility whatsoever for non-payment by the mortgagors, whether for principal, interest, or any other amount which the Mortgagors may owe pursuant to the Mortgage Loans. The Seller, to the same extent as in article 348 of the Commercial Code, will only be held liable vis-à-vis the Fund for the existence and legitimacy of the Mortgage Loans, as well as for the legal status with which it carries out the sale. Likewise, it will not be held liable, in any form whatsoever, for directly or indirectly guaranteeing the successful conclusion of this transaction, nor will it grant collateral or bank guarantees, nor enter into agreements to repurchase the Participations and the Certificates, whether pursuant to the Articles of Incorporation, or to this Prospectus, or to any other agreement or contract. All of this, without prejudice to the Seller being held liable (i) in relation to the commitment regarding the servicing of the Mortgage Loans, described in section 3.7.1 of the Additional Building Block and in the Articles of Incorporation, (ii) in relation to the substitution duty set forth in section 2.2.9. of the Additional Building Block, and (iii) in relation to the representations and warranties of the Seller to the Fund with respect to the Mortgage Loans set forth in section 2.2.8. of the Additional Building Block.

The Bonds issued by the Fund do not represent or constitute an obligation of IBERCAJA or of the Sociedad Gestora. No other guarantees have been granted by any public or private entities, including IBERCAJA, the Sociedad Gestora, and any other firm affiliated with or invested in by any of the above.

3.2 Limited protection

An investment in the Bonds may be affected, inter alia, by a worsening of the general economic conditions that have a negative effect over the payments of the Mortgage Loans that back the Fund issue. In the event that the level of default becomes high, the limited protection against Mortgage Loan portfolio loss afforded to the Classes A, B, C, D and E Bonds as a result of the existence of the credit enhancement transactions described in the Additional Building Block could be reduced, or even exhausted.

3.3 Risk of early redemption of the Mortgage Loans

The Participations and the Certificates pooled in the Fund may be prepaid when the Mortgagors prepay the outstanding principal of the Mortgage Loans, or in the event of IBERCAJA being subrogated in the corresponding Mortgage Loans by another financial institution duly authorised for such purpose, subject to Act 2/1994, of 30 March, on the subrogation and amendment of mortgages loans, in its current wording ("Ley 2/1994"), or for any other reason having the same effect.

Not for distribution in US or to US persons.

The risk of such early redemption will be transferred each quarter, on each Payment Date, to the Bondholders in accordance with the repayment rules set forth in section 4.9. of the Securities Note.

3.4 Regulatory change

The Spanish parliament is currently debating a bill devised to modernise the mortgage market, regulate the system governing reverse mortgages and regarding long-term care insurance which, if passed, will result in certain partial amendments of the Ley del Mercado Hipotecario 2/1981, of 25 March (Mortgage Market Act), the Mortgage Act of 8 February 1946 and Act 2/1994, of 30 March, on the subrogation and amendment of mortgages loans, regulations which are described throughout this Prospectus, and which could affect the assets backing the Issue.

4.4.3 Early liquidation and Extinction of the Fund

By virtue of the provisions of the Articles of Incorporation of the Fund and this Prospectus, the Sociedad Gestora will be authorised to carry out the early liquidation of the Fund and through this, the early redemption of the total Bond issue when, on any Payment Date, the Receivable Nominal Balance of the Participations and Certificates is less than 10% of the original balance of the Participations and the Certificates on the Incorporation Date, provided that the sale of the outstanding Participations and Certificates, together with the balance existing at that time in the accounts opened in the name of the Fund enables the total cancellation of all outstanding payment obligations with the Bondholders and respecting the payments prior thereto whose priority order takes preference, as set forth in section 3.4.6.3 of the Additional Building Block, and provided that the necessary authorisations for doing so have been obtained from the competent authorities.

The Sociedad Gestora will proceed to liquidate the Fund early in the following circumstances, and the CNMV and the Rating Agencies will be informed beforehand if any of them occur:

- (i) When there is a change in the tax regulations that, in the opinion of the Sociedad Gestora, has a significant and negative effect on the financial balance of the Fund.
- (ii) When, in the opinion of the Sociedad Gestora, exceptional circumstances occur which make it impossible, or extremely difficult, to maintain the financial equilibrium of the Fund.
- (iii) In the circumstances set forth in Article 19 of Royal Decree 926/1998, and that are referred to in section 3.7.2. of the Additional Building Block.
- (iv) When there occurs a non-payment indicative of a serious and permanent imbalance in relation to one of the Bonds issued, or it is foreseen that it is going to occur.
- (v) When thirty (30) months elapse since the last date of maturity of the Mortgage Loans pooled in the Fund.

In all these cases, the Sociedad Gestora will proceed to the orderly liquidation of the Fund in accordance with the Liquidation Payment Priority Order set forth in section 3.4.6.3. of the Additional Building Block.

The Fund will be extinguished, in any event, as a result of the following circumstances:

(i) When the Participations and the Certificates are repaid in full. In the event that all the Participations and the Certificates have matured and amounts thereof remain to be collected and obligations remain to be paid to the Bondholders, the Fund will be extinguished on the Payment Date immediately after thirty-six (36) months elapse since

the last date of maturity of the Mortgage Loans pooled in the Fund, that is to say, 26 November 2049 (the "**Legal Maturity Date**") or, if that day is not a Business Day, the next Business Day.

- (ii) When the Bonds issued are redeemed in full.
- (iii) In the event that one of the provisional ratings assigned to the Bonds by the Rating Agencies is not confirmed before the start of the Bond subscription period, which will start on 14 May 2007 at 12:00 noon (CET) and will end the same day at 2:00 p.m. (CET) (the "Bond Subscription Period"), the incorporation of the Fund, the issue and subscription of the Participations and the Certificates, the Guaranteed Interest Rate Deposit Contract (Reinvestment Account), the Bond Issue Management, Underwriting and Placement Contract, the Interest Swap Agreement, the Interest Rate Cap Agreement, the Initial Expenses Loan Contract and the Subordinated Loan Contract, as well as any other contracts entered into by the Fund and the issue of the Bonds will be considered rescinded.

In this event of the early termination of the Fund, the Seller will undertake to meet any initial expenses that may have been incurred in incorporating the Fund.

In the event that, at the time of the final liquidation of the Fund, any outstanding obligations remain to be paid by the Fund to any of the Bondholders, the Sociedad Gestora will proceed in one of the following ways:

- It will proceed to sell the Participations and Certificates, for which purpose it will obtain firm bids from at least five (5) of the entities that deal most actively in these assets that, in its opinion, can give a market value. The Sociedad Gestora will be obliged to accept the best bid received in relation to the assets offered from such entities. In order to establish the market value, the Sociedad Gestora may request any valuation reports that it deems necessary. The names of the entities will be reported to the CNMV and the Rating Agencies.
 - The Seller will have the right of pre-emption to recover the Participations and Certificates belonging to the Fund, corresponding to Participations and Certificates not redeemed at the time of the liquidation, under the terms stipulated by the Sociedad Gestora and in accordance with the provisions of the preceding section. The right of pre-emption does not, under any circumstances, imply an agreement or declaration to repurchase the Participations and Certificates issued by the Seller. The Seller will have 5 Business Days, counted from the date on which the Sociedad Gestora notifies it of the terms and conditions in which it will proceed to dispose of the Participations and Certificates, to exercise the said right of pre-emption, and must at least match the best bid made by third parties.
- Proceed to terminate any contracts that are not deemed necessary for the Fund liquidation process.
- Should that be insufficient or should loans or other assets remain, it will proceed to sell the other assets held by the Fund. The Sociedad Gestora will be authorised to accept any bids that, in its opinion, meet the market value of the asset in question and are paid in cash. In order to establish the market value, the Sociedad Gestora may request the valuation reports it considers necessary.

The Sociedad Gestora, after allocating the reserve to meet the expenses incurred in liquidating the Fund, will apply all the amounts that it obtains through the disposal of the assets of the Fund, together

In the event that, once the Fund has been liquidated and all the payments set forth in section 3.4.6.3. of the Additional Building Block have been made, there is any remainder, such remainder will be paid to the Seller. In the event that the remainder is not a liquid amount and consists of Participations and Certificates from Mortgage Loans that are pending rulings with respect to court or notarial proceedings initiated as a result of by Mortgagor default, both their continuation and the outcome of the ruling will be in favor of the Seller.

In any event, the Sociedad Gestora, acting on behalf of and for the account of the Fund, will not proceed to extinguish the Fund and to cancel its registration in the pertinent administrative registries until it has proceeded to sell the remaining assets of the Fund and to distribute the Available Resources, following the Liquidation Payment Priority Order, except for the reserve to be allocated to pay the extinction expenses.

Should any Underwriting and Placement Agent not deliver to the Fund the amounts in accordance with the provisions of the Placement Management, Subscription and Underwriting Contract, this will not affect the other Underwriting and Placement Agents, who will only remain obliged to meet their respective individual commitments and, accordingly, will not be obliged to assume responsibility for the part payable by the breaching Underwriting and Placement Agent. to the courts and tribunals of Spain, with waiver of any other jurisdiction to which the parties may be entitled.

4.8. Interest payment and principal reimbursement dates

Bond Interest

From the Disbursement Date until their total maturity, all the Bonds will accrue a annual nominal rate of interest, adjusted quarterly. This interest will be paid quarterly in arrears on each Payment Date on the Receivable Nominal Balance of each Bond.

The interest of the Bonds will be paid, in relation to the other Fund payments, in the Payment Priority Order set forth in section 3.4.6.2. of the Additional Building Block.

With regard to the accrual of the interest for the Bond issue, payment of interest will be divided into interest accrual periods ("Interest Accrual Periods") which will include the days elapsed between each Payment Date (including the first Payment Date and excluding the last one). Exceptionally, the first Interest Accrual Period will last more than one calendar quarter, will start on (and include) the Disbursement Date and will end on (and exclude) the first Payment Date, in other words, 27 August 2007.

The annual Nominal Interest Rate accrued by each Series of Bonds during each Interest Accrual Period will be the result of adding (i) the Reference Interest Rate, calculated as stipulated below, and rounded to the nearest thousandth, taking into account that, in the event of equal conditions for rounding up or down, the amount will always be rounded up; plus (ii) the margin applicable to each Series of Bonds, as indicated below.

Reference Interest Rate:

The Reference Interest Rate for fixing the interest rate applicable to the Bonds of all the Series will be the 3 month EURIBOR or, if necessary, its substitute, determined as stated below.

Fixing of the Bond Reference Interest Rate

The EURIBOR will be fixed according to the rules established in this section.

On each of the Interest Rate Fixing Dates, (as such date is defined in this section), the Sociedad Gestora, with the information received from the Financial Agent, will fix the Reference Interest Rate, which will be equal to the EURIBOR, as follows:

- (i) The 3-month EURIBOR displayed on the EURIBOR01 page of the REUTERS screen, on the Fixing Date at 11:00 a.m. (CET). "REUTERS screen, "EURIBOR01" page is the one that displays the contents of the "EURIBOR01" page on the REUTERS MONITOR MONEY RATES SERVICE (or any other page that may replace it in this service).
- (ii) In the absence of rates as indicated in number (i) supra, the simple arithmetic mean of London interbank rates for non transferable deposits in euros, with three (3) month maturity, for an amount equivalent to the Outstanding Nominal Balance of the Bonds offered on the Fixing Date by the entities mentioned below, after and at about 11:00 a.m. (CET) will prevail. This interest rate will be requested simultaneously from the following entities:
 - Banco Santander Central Hispano (London)
 - Banco Bilbao Vizcaya Argentaria (London)
 - Barclays Bank (London)

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May 8, 2007.

Not for distribution in US or to US persons.

- Confederación Española de Cajas de Ahorros (London Branch)

In the event that one or several of the aforementioned institutions do not furnish a list of quoted rates, the rate applied will be the rate that results from applying the simple arithmetic mean of the rates declared by at least two of the remaining institutions.

(iii) In the absence of the rates in accordance with the provisions of paragraphs (i) and (ii), the Reference Interest Rate for the immediately previous Interest Accrual Period will apply. On the First Interest Fixing Date, in the event that the Reference Rate is not published in accordance with the provisions of paragraphs (i) and (ii), in accordance with paragraph (i), the rate applied will be the rate published on the last Business Date on which such Reference Interest Rate was published.

The Sociedad Gestora will keep copies of the REUTERS screen printouts, or if appropriate, the quote statements from the banks referred to in paragraph (ii) above, as documents accrediting the EURIBOR rate determined.

Notwithstanding the above, the Reference Interest Rate for the first Interest Accrual Period, in other words, the period between the Disbursement Date and the first Payment Date, will be the result of the linear interpolation between the three (3) month EURIBOR rate and the four (4) month EURIBOR rate, taking into account the number of days of the first Interest Accrual Period. The Interest Rate for the first Interest Accrual Period will be calculated with the following formula:

$$R = E3 + ((d-92)/31)*(E4-E3)$$

Where:

R= Reference Interest Rate for the first Interest Accrual Period.

d = Number of days of the first Interest Accrual Period.

E3 = three (3) month EURIBOR rate.

E4 = four (4) month EURIBOR rate.

The three (3) and four (4) month EURIBOR rate for the first Interest Accrual Period will be fixed in accordance with the rules established in the previous paragraphs of this section, without prejudice to the time references made beforehand changing, as a result thereof, from three (3) to four (4) or five (5) months, except for the rule set forth in the first sentence of paragraph (iii) above, which will not apply.

Date for Fixing the Reference Interest Rate and Bond Interest Rate

The Reference Interest Rate Fixing Date for each Interest Accrual Period will be the second (2nd) Business Day prior to the Payment Date (the "**Fixing Date**") and will apply for the next Interest Accrual Period. Exceptionally, for the first Interest Accrual Period the Reference Rate will be fixed on the second (2nd) Business Day prior to the Disbursement Date (that is to say, 14 May 2007).

Once the Bond Reference Interest Rate has been fixed, and on the same Fixing Date, the Sociedad Gestora will calculate and fix, for each of the Series of Bonds, the interest rate applicable to the next Interest Accrual Period.

Margin applicable to the Reference Interest Rate for each Series of Bonds

A margin that as a maximum will be as follows for each Series of Bonds:

- Series A1 Bonds: 0.13%.

- Series A2 Bonds: 0.17%.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May 8, 2007.

Not for distribution in US or to US persons.

- Series B Bonds: 0.40%.

- Series C Bonds: 0.65%.

- Series D Bonds: 2.75%.

- Series E Bonds: 3.75%.

The margin applicable to each of the series of Bonds, expressed as a percentage, will be fixed by common agreement by the Lead Managers, at the latest, before 10.00 a.m. (CET) of the second (2nd) Business Day prior to the Disbursement Date (that is to say, 14 May 2007). The definitive margin applicable to the Bonds will be reported by fax to the Sociedad Gestora before 10:30 a.m. (CET) of the second (2nd) Business Day prior to the Disbursement Date (that is to say, 14 May 2007) by the Lead Managers. In the event of the absence of this notification, the Sociedad Gestora will set the margin for those Series as:

Series A1 Bonds: 0.13%.

Series A2 Bonds: 0.17%.

Series B Bonds: 0.40%.

Series C Bonds: 0.65%.

Series D Bonds: 2.75%.

Series E Bonds: 3.75%.

If the Sociedad Gestora fixes the definitive margins applicable to each Series in the absence of an agreement, before the start of the Subscription Period it will inform the Lead Managers, who will in turn inform the Underwriting and Placement Agents, who will in turn inform the investors interested in subscribing the Bonds. The final margin applicable will be registered in the disbursement certificate.

Formulae for calculating the Interest of the Bonds

The Sociedad Gestora will calculate the interest accrued by the Bonds of each Series, during each Interest Accrual Period, in accordance with the following formula:

$$I_i = N_i * r_i * \frac{n_i}{360}$$

Where:

N_i: Receivable Nominal Balance of the Bond at the start of the Interest Accrual Period.

I_i: Total amount of interest accrued by the Bond in the Interest Accrual Period.

 r_i : the rate of interest of the Bond on an annual basis, calculated as the sum of the Reference Interest Rate of the pertinent Interest Accrual Period plus the margin specified for that Series.

n: is the number of days in the Interest Accrual Period.

4.8.1. Time limit on the validity of claims to interest and repayment of principal

Interest on the Bonds, regardless of the Series to which they belong, will be paid by quarters in arrears, on 26 February, 26 May, 26 August and 26 November of each year until the total maturity of the Bonds (each one of them, a "**Payment Date**"). In the event of any of those days not being a Business Day, the interest and principal corresponding to the quarter will be paid on the following Business Day. The first Payment Date will be 27 August 2007.

In the event that on a Payment Date, and despite the mechanisms established for the protection of the rights of the Bondholders, the Available Resources, as the latter are defined in sections 3.4.6.2. and 3.4.6.3. of the Additional Building Block, are not sufficient to pay all or part of the interest accrued by the Bonds of any of the Series, pursuant to the Payment Priority Order or the Liquidation Payment Priority Order set forth in such sections and in the event that the Available Resources only suffice to partially meet obligations that rank in the same order of priority, the amount will be distributed among the Bonds involved, in proportion to the Receivable Nominal Balance thereof, and any amounts that the Bondholders have not been paid will be paid on the next Payment Date that this is possible, without accruing default interest. Any payments not made to the Bondholders will be made on the next Payment Date (if sufficient Available Resources exist to do so) that ranks immediately prior to the payments to the holders of Bonds of that same Series corresponding to that period. The Fund, acting through its Sociedad Gestora, will not postpone the payment of interest or principal of the Bonds later than the Fund's Legal Maturity Date, 26 November 2049 or, if that day is not a Business Day, the next Business Day.

 - (iv) the Required Level of the Reserve Fund on the Payment Date preceding the corresponding Payment Date has been allocated in full,
 - (v) the Receivable Nominal Balance of the Non-Defaulted Participations and Certificates is equal to or higher than 10% of the Original Balance of the Non-Defaulted Participations and Certificates on the Incorporation Date of the Fund.
- (c) To proceed to the redemption of the Class D, that prior to the corresponding Payment Date:
 - (i) the Receivable Nominal Balance of the Class D is equal to or greater than 0.80% of the sum of the Receivable Nominal Balance of the Classes A, B, C and D,
 - (ii) the Receivable Nominal Balance of the Non-Defaulted Participations and Certificates, more than 90 days in arrears, does not exceed 0.75% of the Receivable Nominal Balance of the Non-Defaulted Participations and Certificates pooled in the Fund,
 - (iii) that the Pro Rata Redemption of Class A, as set forth in section 4.9.2.2. of the Securities Note, does not apply
 - (iv) the Required Level of the Reserve Fund on the Payment Date preceding the corresponding Payment Date has been allocated in full,

4.9.2.4. Amount Available for Redemption

On each Payment Date, the amount that will be allocated to the redemption of the Class A, B, C and D Bonds, will be an amount equal to the lesser of the following amounts (the "Amount Available for Redemption"):

(a) The positive difference on that Payment Date between the Receivable Nominal Balance of the Series A1, A2, B, C and D Bonds (before the amount redeemed on that Payment Date) and the Outstanding Nominal Balance of the non-defaulted Participations and Certificates (the "Non-Defaulted Participations and Certificates"), for the last day of the month prior to the month of the Payment Date; and

Not for distribution in US or to US persons.

(b) the Available Resources on that Payment Date, after deducting the amounts of the items indicated in items one (1) to six (6) of the Payment Priority Order described in section 3.4.6.2 of the Additional Building Block.

Consequently, in the event of Defaulted Participations and Certificates, the Series A1, A2, B, C and D Bonds will be redeemed by an amount equal to their Nominal Balance Outstanding on the last day of the calendar month prior to the current Payment Date, plus the amounts due and uncollected since the last Payment Date. The Bonds will be redeemed using the Available Resources, always after paying any obligations that rank before the redemption in the Payment Priority Order described in section 3.4.6.2. of the Additional Building Block or in the Liquidation Payment Priority Order described in section 3.4.6.3 of the Additional Building Block. Should there be Available Resources for making these payments, the corresponding amounts will remain pending redemption until the immediately next Payment Date.

Distribution and application.

- 1. When on a Payment Date the Bond redemption conditions are as set forth in section 4.9.2.1. above, the Amount Available for Redemption will be distributed and applied as follows:
 - a. Redemption of the Series A1 Bonds, by 18% of the Amount Available for Redemption.
 - b. Redemption of the Series A2 Bonds, by the difference between the Amount Available for Redemption and the amount by which the Series A1 Bonds have been redeemed, as described in section a above.
 - c. When the Class A Bonds have been fully redeemed, the Amount Available for Redemption will be will be distributed and applied sequentially first of all to the redemption of the Series B Bonds, secondly to the redemption of the Series C Bonds and thirdly to the redemption of the Series D Bonds.
- 2. When the conditions for the Pro Rata Redemption of the Class A, set forth in section 4.9.2.2. above, exist on a Payment Date, the Amount Available for Redemption will be distributed pro rata between the Series that form Class A, in terms of the proportion that the Receivable Nominal Balance of each Series represents with regard to the Receivable Nominal Balance of the Class A.
- 3. When the circumstances for the pro rata redemption between Classes, set forth in section 4.9.2.3. above, exist on a Payment Date, the Amount Available for Redemption will be distributed pro rata among the Classes A, B, C and/or D, in terms of the proportion that the Receivable Nominal Balance of each Class represents with regard to the sum of the Receivable Nominal Balance of the Classes A, B, C and D.

When this distribution has been completed: the Class B, C and/or D Bonds will be redeemed by the amount applicable thereto.

The amount applicable to the redemption of the Class A Bonds will be distributed and applied as follows:

a. Redemption of the Series A1 Bonds by 18% of the Amount Available for Redemption that is applicable to the Class A Bonds.

Not for distribution in US or to US persons.

b. Redemption of the Series A2 Bonds, by the difference between the Amount Available for Redemption that is applicable to the Class A Bonds and the amount by which the Series A1 Bonds have been redeemed, as described in section a above.

4.9.4. Legal Maturity Date

The Legal Maturity Date and, consequently, the date of the definitive redemption of the Bonds will be 26 November 2049 (which coincides with the Payment Date immediately following the date oibtained by adding 36 months to the last Mortgage Loan Redemption Date) or, if that day is not a Business Day, the next Business Day. However, the Sociedad Gestora, for and on behalf of the Fund, and pursuant to the provisions of section 4.4.3. of the Registration Document, may proceed to redeem the Bonds before the Legal Maturity Date. The definitive redemption of the Bonds on the Legal Maturity Date will be carried out in accordance with the Liquidation Payment Priority Order.

4.9.5. Collection Dates, Collection Periods and Notification Dates

"Collection Date", will be the 20th day of each month. On these dates the transfers will be made from the Seller, as the servicer of the Mortgage Loans, to the Reinvestment Account. If this day is not a Business Day, the transfer will be made on the Business Day immediately before. The transfers will be made with at a weekly interval in the circumstances set forth in section 3.4.4.1. of the Additional Building Block. The first Collection Date will be 20 June 2007.

"Collection Period" will mean a period that coincides with the calendar month. Payment to the Fund of the amounts collected from the borrowers will be performed during these periods. Exceptionally, the first Collection Period will be between the Incorporation Date and the last day of the month of May, 2007.

"Notification Date", will be the second (2nd) Business Day prior to each Payment Date throughout the lifetime of the Fund. On these dates the Sociedad Gestora will notify the amounts to be paid for principal and interest to the holders of the Bonds issued, in the manner described in section 4.1. of the Additional Building Block.

4.9.6. Early Redemption of the Bonds

Notwithstanding the obligation of the Fund, through its Sociedad Gestora, to redeem the Bonds of each Series on the Legal Maturity Date (26 November 2049, or, if this is not a Business Day, the next Business Day) or the partial redemptions on each Payment Date, as established in the previous sections, the Sociedad Gestora will be authorised to proceed to carry out the Early Liquidation of the Fund and hence the early redemption (the "Early Redemption"), on a Payment Date, of the entire Bond Issue, in accordance with the Events of Early Liquidation and the requirements set forth in section 4.4.3 of the Registration Document and subject to the Liquidation Payment Priority Order set forth in section 3.4.6.3 of the Additional Building Block.

4.10. Indication of the yield for investors and method of calculation

The main characteristic of the Bonds is that their periodic redemption depends on the aggregate behaviour of the Mortgage Loans.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May 8, 2007.

The average life, yield, duration and final maturity of the Bonds of each Series depends on diverse factors, the most significant of which are as follows:

- a) The repayment system and calendar for each of the Mortgage Loans stipulated in the related contracts.
- b) The capacity of the Debtors to prepay, in full or in part, the Mortgage Loans and the rate at which such prepayment takes place in aggregate over the life of the Fund.
- c) The floating interest rates that will apply to each of the Mortgage Loans, which will cause the amount of each repayment instalment to vary.
- d) Delinquency of the debtors in making the Mortgage Loan repayments.

In this regard, prepayments by the Debtors of the Mortgage Loans are very significant. The prepayments are subject to continuous change and in this Prospectus are estimated using several assumptions for the future behaviour of the constant effective annual early redemption rate (the "ERR") which will have a direct bearing on the rate at which the Bonds are redeemed and hence on their average life and duration.

To calculate the data shown in the tables contained in this section, and in view of the uncertain nature of many of the parameters, the following hypotheses have been assumed:

1. The annual Nominal Interest Rates applicable to the Series A1, A2, B, C, D and E Bonds, variable quarterly, taking into account the 3-month EURIBOR of 27 April 2007, that is to say, 4.013%, and assuming that the final margin applicable will be set at 0.13% for the Series A1 Bonds, 0.17% for the Series A2 Bonds, 0.40% for the Series B Bonds, 0.60% for the Series C Bonds, 2.75% for the Series D Bonds and 3.75% for the Series E Bonds.

	Series A1	Series A2	Series B	Series C	Series D	Series E
Nominal interest rate	4.143%	4.183%	4.413%	4.663%	6.763%	7.763%

Taking into account that, on the first Payment Date, the Reference Interest Rate will be the rate that results from the linear interpolation between the three (3) month EURIBOR rate and the four (4) month EURIBOR rate, pursuant to the provisions of section 4.8 of this Securities Note, and since the three (3) month and four (4) month EURIBOR rates on 27 April 2007 are 3.934% and 4.013%, and, therefore, the interpolated EURIBOR is 3.974%, the Nominal Rate of Interest applicable to the Bonds of each Series on the first Payment Date would be as follows:

	Series A1	Series A2	Series B	Series C	Series D	Series E
Nominal interest rate	4.089%	4.129%	4.359%	4.609%	6.709%	7.709%

2. weighted average interest rate for the pooled Participations and Certificates: 4.501%.

Not for distribution in US or to US persons.

- 3. Assuming the redemption charts of each of the Mortgage Loans, and supposing 3 constant annual early redemption rates (9%, 12% and 15%) throughout life of the Fund, which are coherent with the Seller's portfolio.
- 4. Arrears of more than 90 days of the portfolio of Participations and Certificates: 0.50% per annum, with 85% recovered in 15 months.
- 5. The Disbursement Date of the Securitisation Bonds will be 17 May 2007.
- 6. Estimated annual Ordinary Expenses of the Fund: €235,000.

The arrears, recovery and early redemption rates are coherent with those observed by the Seller with respect to credit rights of a similar nature to those that form the audited portfolio.

Assuming that the Sociedad Gestora will exercise the option relating to the Early Liquidation and Early Redemption of the Bond Issue, that is to say, when the Receivable Nominal Balance of the Mortgage Loans is less than 10% of their Receivable Nominal Balance on the Incorporation Date, the average life, IRR, duration and final maturity of the Securities at different ERR, would be as follows:

The average life of the Bonds has been calculated with the following formula:

$$A = \frac{\sum_{n=1}^{n} (B_n * m_n)}{C} * \frac{1}{12}$$

Where:

A= Average life expressed in years.

B_n= Principal to be redeemed of each Series of Bonds on each Payment Date.

m_n= Months between the Disbursement Date of the issue and each Payment Date.

n = 1,...,n. Number of quarters (Payment Dates) in which the B_n amounts will be paid.

C = Total amount in Euros of each Bond Series.

Internal Rate of Return (IRR) has been calculated with the following formula:

$$N = \sum_{n=1}^{T} a_n * (1+I)^{-(\frac{d_n}{365})}$$

Where:

N= Bond subscription price.

i= IRR expressed as an annual rate, as a decimal fraction of one.

dn= Days between the Disbursement Date of the corresponding issue and each Payment Date.

an= a1,...,an. Total amounts to be redeemed (on maturity) and/or interest that investors will receive every

n= 1,...,t. Number of quarters during which the "an" amounts will be paid.

Duration of the Bonds (Macaulay adjusted formula):

$$D = \frac{\sum_{j=1}^{n} (Pn \times VA_n)}{PE} \times \frac{1}{(1+I)}$$

Where:

D= Duration of each Series of Bonds expressed in years.

Pn = Time elapsed (in years) between the Disbursement Date and each Payment Date.

VAn= Present value of the total amounts of principal and interest that investors will receive every quarter, discounted on an annual basis at the internal rate of return (IRR).

PE= Bond issue price, 100,000 euros.

I= Internal rate of return (IRR) expressed as a percentage of one.

n = 1,...,n. Number of quarters (Payment Dates) in which the VAn amounts will be paid.

Final maturity: for each of the Series, date on which the final redemption of the Bonds is expected, assuming exercise of the option for Early Liquidation of the Fund and Early Redemption of the Bond Issue when the Receivable Nominal Balance of the Mortgage Loans is less than 10% of the original Receivable Nominal Balance.

The tables below display the financial servicing per Bond of each of the Series for different early redemption rates calculated in accordance with the aforementioned hypotheses. The Sociedad Gestora expressly declares that these tables are merely theoretical and given for illustrative purposes, and do not represent any payment obligation.

NOTE FOR THE INVESTOR:

The Sociedad Gestora declares that the information in the charts displayed below is only given by way of example, and the amounts do not represent a specific obligation by the Fund to make payments to third parties on the respective dates or in the periods to which they refer. The figures have been drawn up on the hypothesis that the loan default and repayment rates remain constant throughout the life of the Fund yet are actually subject to constant change. Therefore any investor interested in knowing the payments that the Fund is scheduled to make on each specific date must request the pertinent information from the institutions authorised to distribute it, Sociedad Gestora, AIAF Market and CNMV. Nevertheless, the information can also be requested through the Underwriting Agents and other entities that operate on the secondary market.

As consideration for the services to be performed by the Financial Agent, the Fund will pay the latter on each Payment Date a fee that is regulated in the Financial Services Contract and that will be formed by a fixed amount, and another variable amount that will be the result of applying a percentage (on an annual basis) to the Outstanding Nominal Balance of the Participations and Certificates pooled in the Fund on the immediately previous Payment Date.

Without prejudice to the provisions of the previous paragraphs, the non-confirmation before the start of the Subscription Period of the provisional ratings assigned to the Bonds by the Rating Agencies will be construed as grounds for termination of the Financial Services Contract and of the Fund's other contracts.

The Financial Agent may subcontract with, or delegate on, third parties of recognised solvency and capacity vis-à-vis the performance of any services undertaken, provided that (i) this is legally allowed, (ii) beforehand the Seller and the CNMV have been notified and, where applicable, the corresponding authorisations have been obtained, (iii) the Sociedad Gestora gives its prior written consent, on behalf of the Fund; (iv) the subcontractor or delegate has been assigned a short-term rating of P-1 in the case of Moody's or, where applicable, no detriment is caused to the rating assigned to the Bonds by S&P and provided that (v) such subcontractor or delegate has waived any action claiming liability against the Fund, and to extinguish such subcontracts and/or delegations except as provided for by Law. In any case, such subcontract or delegation must not imply any additional expense or cost for the Fund nor for the Sociedad Gestora, or cause any detriment, in any way, to the ratings assigned to the Bonds by the Rating Agencies. Notwithstanding any subcontract or delegation, the Financial Agent will not be exonerated or released by such subcontract or delegation from any of the responsibilities accepted in this Agreement. The Sociedad Gestora is authorised to substitute the Financial Agent (in all or some of its duties as the administrator of the Treasury Account, paying agency or depository of the Participations and the Certificates), provided that this is permitted under current law and, if and when necessary, the authorisation of the competent authorities is obtained. The grounds that give rise to the substitution must be a serious breach of its obligations and be liable to harm the interests of the Bondholders and a downgrading of the Bond Ratings awarded by the Rating Agencies. The substitution will be reported to the CNMV, the Rating Agencies and the Seller.

In the event that the rating assigned by the Rating Agencies to the Financial Agent's short-term risk, such Financial Agent's current ratings being P-1 in the case of Moody's and A-1+ in the case of S&P, is downgraded below P-1 in the case of Moody's, or below A-1 in the case of S&P, or either of the Rating Agencies withdraws such rating for any reason, within the thirty (1) days following such downgrading the Sociedad Gestora, in order to maintain the ratings assigned to each Series by the Rating Agencies, and after notifying the latter, will put into practice, on behalf of the Fund, one of the options that are described below and are necessary, to permit an appropriate level of collateralisation to be maintained with respect to the commitments derived from the duties as depository of the Participations and the Certificates, paying agent, and maintenance of the Treasury Account:

- (i) Secure similar guarantees or commitments from one or several credit institutions with a Moody's rating of no less than P-1, and an S&P rating of no less than A-1, in accordance with S&P criteria, that guarantees the commitments accepted by the Financial Agent.
- ii) Substitute the Financial Agent with an entity that has a Moody's rating of no less than P-1, and an S&P rating of no less than A-1. This new entity will perform the Financial Agent's duties in the same terms and conditions.

For these purposes, the Financial Agent will give an irrevocable undertaking to notify the Sociedad Gestora, as soon as such circumstance occurs, throughout the life of the Bond Issue, if the long and short term ratings assigned to it by the Rating Agencies are modified or withdrawn.

Moody's rating takes into account the structure of the Bond issue, its legal aspects, the characteristics of the Fund, the nature and the characteristics of the Mortgage Loans and the regularity and continuity of the flows in the transaction.

Moody's rating does not constitute an assessment of the likelihood of the Mortgagors making advance payments of the principal, nor of the extent to which such payments may differ from the original schedule. The rating does not, under any circumstances, represent a rating of the level of actuarial yield.

The ratings assigned to each Series of Bonds by Moody's measure the loss expected before the Fund Legal Maturity Date. In Moody's opinion, the structure permits the timely payment of the interest and the payment of the principal during the life of the transaction and, in any case, before the Fund's Legal Maturity Date for the Series A1, A2, B, C and D.

To perform its analysis, Moody's has relied on the representations made by the entities participating in the transaction, by their auditors and lawyers, and by other experts, about the accuracy and completeness of the information that it has been given in relation to the rating and the subsequent monitoring.

The rating assigned by Moody's in the creation of the Fund may be revised, suspended or withdrawn at any time, depending on any information that comes to its knowledge. The initial rating and all revisions or suspensions thereof:

- (i) Are formulated by Moody's on the basis of varied information received, the accuracy and completeness of which is not guaranteed by Moody's, and therefore Moody's will in no event be held liable for the contents thereof.
- (ii) Do not constitute and, therefore, could not in any way be interpreted as an invitation, recommendation or solicitation for investors to proceed to carry out any type of transaction with the Bonds and, in particular, to acquire, retain, encumber or sell such Bonds.
- (iii) Neither does it reflect the market conditions or the potential needs of any investor in particular.
- (iv) The ratings assigned by Moody's are based on the information supplied by the issuer, and its experts and agents, and are subject to the reception of the final documents. Moody's does not audit, verify or check the truth, precision or accuracy of such information.

The rating assigned by S&P as to the credit risk is an opinion about the capacity of the Bonds to make the periodic interest and principal payments throughout the life of the transaction and always before the Legal Maturity Date.

The S&P rating is based on the quality of the Participations and the Certificates pooled in the Fund, on the credit enhancement available and on the legal and financial aspects of the Bond Issue.

The S&P rating does not constitute an assessment of the risk of the Mortgagors making advance payments or repaying all of the principal of the Participations and the Certificates. The rating does not in any way assess the level of return received by investors.

To perform its analysis, S&P has relied on the statements made by the entities participating in the transaction, by their auditors and lawyers, and by other experts, about the accuracy and completeness of the information that it has been given in relation to the rating and the subsequent monitoring.

The rating assigned by S&P upon the creation of the Fund may be revised, suspended or withdrawn, depending on any information that comes to its notice, or on the non-availability of information, or for any other reason.

The S&P rating does not constitute a recommendation to buy, sell, or hold the Bonds.

These credit ratings does not constitute a recommendation to buy, sell or hold securities. The credit rating may be revised, suspended or withdrawn at any time by the rating agency.

These credit ratings are only an estimate and do not necessarily mean that potential investors do not have to conduct their own analysis of the securities that they intend to buy.

The Sociedad Gestora, on behalf of the Fund, undertakes to provide the Rating with periodic information regarding the situation of the Fund and the behaviour of the Mortgage Loans in order to allow them to continue rating the Bonds. Similarly, it will supply the said information whenever reasonably requested to do so and, in any event, whenever a change occurs in the conditions of the Fund, in the contracts entered into by the Fund through its Sociedad Gestora or in the interested parties.

The non-confirmation before the start of the Subscription Period of one of the provisional ratings assigned to the Bonds by the Rating Agencies will be construed as grounds for termination of: the issue and subscription of the Participations and the Certificates, the Initial Expenses Loan, the Subordinated Loan, as well as the rest of the Fund contracts, the Incorporation of the Fund and the issue of the Bonds.

The Prospectus submitted for filing and registration at the CNMV is exactly the same as the Prospectus delivered to the Rating Agencies.

ADDITIONAL BUILDING BLOCK TO THE SECURITIES NOTE (ANNEX VIII TO REGULATIONS 809/2004)

1. SECURITIES

The Participations and the Certificates that will be pooled in the Fund at the time of its incorporation will consist of an amount of principal valued at Eur. 1,200,000,000 or slightly less.

1.1 Confirmation that the information relating to an undertaking or obligor which is not involved in the issue has been accurately reproduced.

Not applicable.

2. UNDERLYING ASSETS

2.1 Confirmation that the securitised assets have the capacity to produce the funds payable on the securities.

In accordance with the information supplied by the Seller and the analysis conducted by the Lead Managers, the Sociedad Gestora confirms that the Participations and the Certificates to be issued and which will be backed by the Mortgage Loans, are of characteristics (amount, term, interest rate, mortgage guarantees, etc.) that demonstrate the capacity to produce funds to make the payment owed and payable on the Bonds, payments which will be made in accordance with the Payment Priority Order established in section 3.4.6.2. of this Additional Building Block.

However, in order to consolidate its financial structure and procure the largest possible coverage for the risks inherent to the issue, the Sociedad Gestora, on behalf of the Fund, will proceed on the same date as on which it grants the Articles of Incorporation, to formalise the contracts and carry out the actions that are stipulated in section 3.4.2. of this Additional Building Block.

Also, since not all of the Bonds are subject to the same risk of default, the Rating Agencies have assigned each of the Series the solvency ratings set forth in section 7.5. of the Securities Note.

Notwithstanding the foregoing, the Sociedad Gestora, after notifying the CNMV, will be authorised to proceed to the Early Liquidation and hence the Early Redemption of the Bonds in the following events and with the requirements set forth in section 4.4.3 of the Registration Document.

2.2 Assets backing the issue

The credit rights constituting the Fund assets will be credit rights solely owned by IBERCAJA, derived from mortgage loans granted by IBERCAJA to individuals, secured by mortgages raised on property located in Spanish territory, whose authorisation has been subject to Spanish legislation (the "Mortgage Loans"), for a total amount of one thousand two hundred million euros (€1,200,000,000) or slightly less.

The Mortgage Loans will be sold by IBERCAJA to the Fund by issuing the Participations and the Certificates, in accordance with the individual characteristics of each Mortgage Loan.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May 8, 2007.

Not for distribution in US or to US persons.

On the Incorporation Date, the Participations and the Certificates that will be sold to the Fund will be withdrawn from the loans in the portfolio audited as at 11 April 2007, which consists of fifteen thousand two hundred and fifty-six (15,256) mortgage loans with an Outstanding Nominal Balance of one thousand five hundred and forty-four million twenty-two thousand Nine hundred and seventy-four four euros and fifty-eight eurocents (€1,544,022,974.58).

These selected loans have audited by Pricewaterhouse Coopers Auditores, S.L., registered with the Official List of Registered Auditors (R.O.A.C.) under number S0242 and with registered office at 43, Paseo de la Castellana, in Madrid, and with Tax Identification Number (C.I.F.) B-79031290.

The audit has been conducted using sampling techniques, by analysing a lower number of transactions (sample) than the whole set of mortgage loans ("population"), and make it possible to draw a conclusion about that population with a level of confidence of 99%. The audit addresses a series of quantitative and qualitative attributes of the loans, in particular: purpose of the loan, identification of the borrower, transfer of assets, contracted date, final maturity date, reference interest rate, rate of interest applied, interest rate differential, initial amount of the loan, existing balance of the loan, payment delays, appraised value, current LTV ratio, address of the mortgaged property, mortgage guarantee and liability insurance. Any of the selected loans that are detected as having errors when the sample is being verified, will not be transferred to the Fund by IBERCAJA.

The results of the audit are included in a report issued by Pricewaterhouse Coopers Auditores, S.L.. which is one of the documents on display, as stipulated in section 10 of the Registration Document.

2.2.1 Legal jurisdiction by which the pool of assets is governed

The Participations and the Certificates relating to the Mortgage Loans will be issued in accordance with the laws of Spain.

2.2.2 General characteristics of the debtors

The Fund's assets will consist of the Participations and the Certificates, which represent participations in loans granted for the acquisition, construction or rehabilitation of a dwelling located in Spanish territory, whose Mortgagors are natural persons (the "Mortgagors"), all of which are secured by a real estate mortgage duly registered at the Land Registry.

All the loans accrue interest. In the case of some of the portfolio loans, the loan agreements stipulate a bonus differential system that serves to determine the rate of interest of each loan, and therefore the differential may be reduced throughout the life of the Fund if the conditions set forth in each of the Loan agreements for such situations occur. The reduction of the differential for the Loans, is related to the Debtor's level of commitment to the Seller, in the terms described in section 2.2.7 of the Additional Building Block.

The tables below show the distribution of the mortgage loans that make up the audited portfolio by residual maturity date, contracted date, reference rate, current interest rate, current balance, default and geographical location. These tables have been produced with information as at 11 April 2007.

2.2.7 Asset creation method

As indicated in section 2.2.2. of this Additional Building Block, the Mortgage Loans were granted by the Seller to natural persons for the purposes of the purchase, construction or rehabilitation of dwellings located in Spain or other types of purposes. The Mortgage Loans are secured by a first-class real estate mortgage raised on the fee simple ownership of each and every one of the properties in question, valued by a valuation company. Some of the said Mortgage Loans have been subrogated to private individuals from financing granted to developers. On the Incorporation Date, there will be no disputes of any kind relating to the Mortgage Loans that might impair the validity thereof.

The percentage of loans of the portfolio audited as at 11 April 21007 that have been granted for financing purposes other than the financing of the acquisition, construction or rehabilitation of dwellings does not exceed 9.90% of the Outstanding Balance. The Seller does not have a methodology other than the one described below for the granting of loans for purposes other than the purchase, construction or rehabilitation of dwellings.

The Mortgage Loans have been granted by the Seller, in keeping with its routine procedures, which are described in the document "Memo on Granting of Mortgage Loans", that is attached to the Articles of Incorporation, and which are summarised below:

a) Description of the process

At the customer's request, the branch conducts a preliminary analysis and valuation with a view to the approval of the mortgage loan transaction.

Customers are always attended either by the sales representative or the branch manager.

IBERCAJA receives the customer's loan application in one of the following ways:

- a) The applicant is already an Ibercaja customer.
- b) The applicant is not an Ibercaja customer and is introduced by another customer, either because they are acquaintances or relatives, or because the applicant is going to buy the house that our customer is selling and needs to finance the transaction.
- c) The applicant is not an Ibercaja customer, but is applying after seeing an Ibercaja mortgage loan marketing campaign. Other times, new customers come to Ibercaja because they belong to groups (civil servants, employees of large companies, members of associations, etc.) with which the bank has signed agreements that include special terms and conditions for homebuyers.
- d) The application is filed by an estate agent.
- e) The applicant is buying a house whose construction has been financed by Ibercaja by granting a loan to the property developer (subrogated).
- b) Loans granted directly (individual mortgagor)

During the first interview with customers, Ibercaja normally obtains information about the house that they wish to buy or renovate, if the house has to be bought by a certain date, financing needs, availability of previous savings, if they have been offered mortgages by other banks, and in return customers are given information about Ibercaja's range of products. In particular, customers are given:

- A leaflet with information about the financial terms and conditions of mortgage loans, in accordance with the Ministerial Order dated 05/05/94, regarding the transparency of the financial terms of conditions of mortgage loans (a model is enclosed).
- Features of the types of mortgage loans best suited to the customer's profile (Product presentation card. In the case of some of the portfolio loans, the loan agreements stipulate a bonus differential system which is related to the products that can help to obtain that bonus, as setting up a direct debit for the salary or regular payments, insurance agreements, etc.)
- Simulated repayment schedule.
- Estimate of approximate costs.

At this point, the customer may decide to apply for the mortgage, or else think about it and compare different offers. In this latter case, the branch keeps in touch with the customer to monitor the situation. Once the customer has decide to apply for the mortgage and has submitted the documentation and information requested by Ibercaja, the branch starts processing and examining the application.

The customer has to furnish the following documents:

For salaried workers

- Photocopy of the Identity Card/Tax Identification Number of all the parties involved.
- Last two payslips or wages certificate.
- Last Income Tax return.
- Wealth Tax return (where applicable).
- Documentary justification of the origin and destination of the transaction (contract of sale.

estimate, investment project, list of payments, etc.)

- Photocopy of the property deed of the building to be mortgaged or, where applicable, of the

new works certificate/deed.

- Proof of payment of Property Tax.
- Up-to-date simple note issued by Land Registry.
- Photocopy of the marriage articles registered in the civil registry (where applicable).
- Photocopy of the court ruling filed in the Civil Registry if a court has issued a separation order or decree absolute.

For professionals and self-employed workersIn addition to any of the aforementioned documents that apply to them:

- Social security contributions, VAT returns for the current year and summary for the previous year.
- Quarterly income returns, if they are under the obligation to file them with the Tax Office.

When the customers decide to apply for the loan and furnish all the documents and information requested, the branch office starts to process and analyse the application. The branch processes the application in an automated fashion, requesting a property valuation, information from the CIRBE (Bank of Spain Central Risk Information Database) and the RAI Credit Bureau, as well

as the legal report issued by the Bank's Legal Department, which describes the properties, the legal status of the parties involved and a summary of how to proceed with the transaction to ensure that it is legally correct.

When all the information has been obtained, a loan viability analysis is conducted that includes the use of a scoring programme. The main criterion underlying a decision to grant a loan is the customer's capacity to repay the loan on time, and any additional security or collateral is considered to support the transaction, but under no circumstances as a decision-making criterion.

When all the information has been obtained, the branch office decides whether or not to grant the loan, if it is authorised to do so, or else submits the transaction for approval at a higher decision-making level authorised to do so.

When the transaction has been authorised at the pertinent level, all the relevant documents are drawn up, the deed is signed in the presence of a Notary Public and all the legal formalities necessary for the transaction to be considered properly entered into are completed.

Once a customer has furnished all the required documents, the transaction can be carried out within eight to ten days.

c) Developer (subrogated mortgages)

In the case of subrogated loans, it is the property developer who gives IBERCAJA a list of the homebuyers, as well as a copy of the private contracts of sale. The branch office handles the formalities with the customers, securing their prior commitment to be subrogated to the mortgage and requests the documents it needs to analyse the transaction.

2.2.9 Substitution of the securitised assets

In the exceptional event that, after the Incorporation Date and, notwithstanding the declarations made by each Seller and the diligence exercised by the latter in ensuring their truthfulness, it is found, during life of the Fund, that one of the Participations and/or Certificates or that one of the Mortgage Loans upon which the latter have been issued, did not conform, on the Incorporation Date of the Fund, to the declarations made in section 2.2.8. of this Additional Building Block or to the facts about which it states, in such section, that it is not aware and set forth in the Articles of Incorporation, the Seller undertakes as follows

(A) To substitute the Participation and/or Certificate in question with another of similar financial characteristics, in terms of the amount, residual term, interest rate, characteristics of the mortgagor and mortgaged property and current balance/appraised value ratio, that is accepted by the Sociedad Gestora, reported to the Rating Agencies and provided that it does not affect the Bond ratings granted by such Agencies.

The amounts accrued and unpaid until the date of substitution of the Participation and/or Certificate that is to be substituted, must be paid to the Fund by the Seller, in its capacity as servicer, at the time that such Participation and/or Certificate is substituted.

Be that as it may, when Substitution a Participation and/or Certificate, the Sellers must attest that the substitute Participation and/or Certificate conforms to the declarations set forth in section 2.2.8. of this Additional Building Block.

As soon as the Seller learns that one of the Participations and/or Certificates that it has issued or that one of the Mortgage Loans underlying them does not conform the aforementioned declarations, it will report the matter to the Sociedad Gestora and indicate the mortgage loans with respect to which it intends to issue new mortgage participations and/or mortgage transfer certificates to substitute the ones affected. If any Participation and/or Certificate is substituted, pursuant to the provisions of this paragraph, the Seller will proceed to issue a new Multiple Certificate that will be exchanged for the certificate that was issued on the Incorporation Date.

The Seller undertakes to formalise the substitution of the Participations and the Certificates in an affidavit and in the manner and time frame stipulated by the Sociedad Gestora, and to furnish any related information that the Sociedad Gestora deems necessary. The substitution will be reported to the Rating Agencies and a copy of the deed will be sent to the CNMV.

(B) In addition to the obligation assumed in point (A) ut supra and whenever the substitution stipulated therein is not possible because the mortgage loans available are not homogeneous with the securitised portfolio in terms of the amount, the class, the residual term, the interest rate, the characteristics of the mortgagor, the characteristics of the mortgaged property, or current balance/appraised value ratio, the Seller undertakes to proceed to the early redemption of the Participation and/or Certificate in question, by reimbursing, in cash, both the outstanding capital of the Participation and/or Certificate in question and the interest accrued and unpaid to date, as well as payable any other amount owing to the Fund with respect to the Participation and/or Certificate in question, by depositing it in the Fund. The Sociedad Gestora will use the amounts received from the early redemption of the Participations and/or Certificates affected by the aforementioned circumstances, to redeem the Bonds on the next Payment Date, subject to the Payment Priority Order described in section 3.4.6.2 of this Additional Building Block.

In particular, should the Seller modify the terms and conditions of the Mortgage Loans during their lifetime without complying with the limits established in the special legislation applicable and with the terms agreed between the Fund and the Seller in the Articles of Incorporation of the Fund and in this Prospectus, in section 3.7.1. of this Additional Building Block and, therefore, such modification be absolutely exceptional, the Seller would be considered in unilateral breach of its obligations and the Fund will not be held responsible. In the event of such breach, the Fund, through the Sociedad Gestora, will be entitled to (i) seek damages and (ii) seek the substitution or reimbursement of the Participations and/or Certificates in question, pursuant to the provisions of letters (A) and (B) supra. This will not imply that the Seller guarantees the success of the transaction, but the necessary redress of the effects caused by the breach of its obligations, pursuant to article 1,124 of the Civil Code. The expenses originating from the actions to remedy the breach of the Seller will be borne by the latter and may not be recovered from the Fund. The Sociedad Gestora will immediately notify the CNMV whenever loans are substituted or redeemed as a result of breach by the Seller.

^{(*):} In preparing the Balance Sheet, it has been considered that the amount of the Participations and Certificates is one thousand two hundred million euros (\le 1,200,000,000). However on the Incorporation Date, the amount of the Mortgage Loans sold to the Fund through the issue of the Participations and Certificates will be equal to or slightly less than Eur. one thousand two hundred million (\le 1,200,000,000).

3.2 Description of the entities participating in the issue and description of the duties to be performed by them.

The entities participating in the issue, as well as the description of their functions, are contained in sections 5.1 and 5.2. of the Registration Document.

3.3.1 General terms for the issuance and subscription of the Participations and the Certificates.

The Mortgage Loans will be transferred to the Fund through the issue of the Participations and the Certificates by the Seller and their subscription by the Sociedad Gestora on behalf of the Fund pursuant to the Articles of Incorporation and to this Prospectus. The

Participations and the Certificates will be issued in an amount equal to or slightly less than Eur. one thousand two hundred million (€1,200,000,000), equivalent to the nominal amount of the Series A1, A2, B, C and D Bond issue, with each Participation and Certificate referencing the 100% participation in the outstanding principal of each of the Mortgage Loans, and accruing interest at a rate equal to the nominal interest rate accrued by each corresponding Mortgage Loan.

The full and unconditional assignment to the Fund of the credit rights which are derived from the Mortgage Loans, with the exceptions noted in section 3.3.3. of this Additional Building Block, by means of the issue of the Participations and the Certificates, will take place on the Incorporation Date for the remaining term to maturity of said Loans, with no agreement of any kind to repurchase on the part of the Seller. The Participations and the Certificates will begin to accrue the corresponding interest, beginning on the Incorporation Date (inclusive), that is to say, 11 May 2007, and therefore the interest accrued on the Mortgage Loans beginning on the Incorporation Date will be for the benefit of the Fund.

The Seller will not assume any responsibility whatsoever for non-payment by the mortgagors, whether for principal, interest, or any other amount which the Mortgagors may owe pursuant to the Mortgage Loans. Likewise, it will not be held liable, in any form whatsoever, for directly or indirectly guaranteeing the successful conclusion of this transaction, nor will it grant collateral or bank guarantees, nor will it enter into agreements to repurchase the Participations and the Certificates, whether pursuant to the Articles of Incorporation, or to this Prospectus, or to any other agreement or contract.

The Seller will warrant to the Fund the existence and validity of the Mortgage Loans in the same manner as specified by articles 348 of the Commercial Code and 1,529 of the Civil Code.

The conveyance of the Participations and the Certificates is restricted to qualified investors.

3.3.2 Issue price of the Participations and the Certificates

The Sociedad Gestora, on the Incorporation Date, will subscribe to 100% of the Participations and the Certificates on behalf of the Fund.

The price of the Participations and the Certificates will be the full Outstanding Nominal Balance of the Mortgage Loans on the Incorporation Date and will be paid by the Sociedad Gestora, on behalf of and for the account of the Fund, to the Seller, on the Disbursement Date, that is to say, 17 May 2007.

In the event of termination of the incorporation of the Fund and, consequently, of the issue and subscription of the Participations and of the Certificates, (i) the obligation of the Fund to pay for the Participations and the Certificates will be extinguished, and (ii) the Sociedad Gestora will be obligated to restore to the Seller any right which may have accrued to the Fund by the subscription of the respective Participations and Certificates.

3.3.3 Description of the rights conferred upon the Fund for the subscription of the Mortgage Loan Participations and Certificates.

The Fund, as legal holder of the Participations and the Certificates, will hold the rights generally recognised by applicable law and in the Participations and the Certificates. Specifically, the Fund will be entitled to receive the payments which, beginning on the Incorporation Date, are

made by the Mortgagors, with the exceptions noted in the following paragraph, as well as any other payments arising from the Mortgage Loans, whenever they are made in accordance with the Participations and Certificates. The Participations and the Certificates will start to accrue interest in favour of the Fund from the Incorporation Date.

In addition to the payments made by the Mortgagors, the Fund will be entitled to any other payment received by the Seller on the Mortgage Loans, as servicer of these loans, including those arising from any right related to the loan such as those payments arising from insurance policies, payments made by possible guarantors, etc., with the exception of default interest, fees for the collection of unpaid amounts, assumption fees, early redemption/cancellation fees, as well as any other fee or payment to which the Seller is entitled.

In addition, the Fund will be entitled to receive amounts, goods, or rights as payment of principal or interest on the Mortgage Loans, whether based on liquidation price or an amount determined by a court order or other enforcement action of a mortgage guarantee, by the transfer or liquidation of the real estate awarded or as a consequence of the aforementioned enforcement actions, as the acting servicer and manager of the properties in the process of foreclosure. The Seller agrees to provide the appropriate notifications that, depending on the case, are needed in order for said payments to be made to the Sociedad Gestora.

The Seller will exercise reasonable effort in order to maintain in full force and effect the insurance policies purchased relative to the Mortgage Loans, with the Seller being liable to the Fund for any loss sustained by the Fund in the event that the insurance policies are not maintained in full force and effect, as a result of the nonfulfilment of this obligation.

3.3.4 Representation of the Participations and the Certificates and the deposit thereof.

The Participations and the Certificates that are pooled in the Fund will be represented by two Multiple Certificates, one representing all the Participations and the other representing all the Certificates.

Both in the event that the Sociedad Gestora proceeds, on behalf and for the account of the Fund, to substitute a Mortgage Loan in accordance with the provisions of section 2.2.9 of this Additional Building Block, and in the event that a Mortgage Loan is foreclosed, in accordance with the provisions of section 3.7.1 of this Additional Building Block, and if, in the event of the Early Liquidation of the Fund, on the grounds and according to the terms set forth in section 4.4.3 of the Registration Document, the Participations and/or the Certificates have to be sold, and for any other circumstances which may arise, the Seller undertakes to divide any multiple certificate representing the Participations and/or the Certificates into as many individual or multiples certificates as may be required, or to substitute or exchange them, in order to achieve the aforementioned purposes.

The Multiple Certificates representing the Participations and the Certificates and, in a given case, the individual certificates into which they have been divided, will remain on deposit with the Financial Agent who will act as the depository for them.

3.3.5 Other legal system requirements for the Participations and the Certificates.

As established in Royal Decree 685/1982, the Participations and the Certificates will be transferrable by written declaration on the certificate itself and, generally, by any of the means legally allowed in accordance with the provisions of article 67.1 of Royal Decree 685/1982, with the acquisition and ownership limited to qualified or professional investors and not

permitted for the non-specialised public, as stipulated in article 64.1 of Royal Decree 685/1982. The purchaser must inform the issuer both of such a transfer and of the address of the new owner.

The Seller will not be held responsible for the solvency of the issuing entity nor for that of the Mortgagor, nor likewise for the adequacy of the mortgage which secures it.

3.3.6 Notification of the Mortgagors

The respective Mortgagors will not be notified of the sale by IBERCAJA of the Mortgage Loans to the Fund, and under no circumstances will such notification be compulsory for the sale to take effect. However, in the event of insolvency, or signs thereof, or in the event of an intervention by the Bank of Spain, of the liquidation or substitution of the Servicer, or because the Sociedad Gestora deems it reasonably justified, the latter may demand that the Servicer notify the Mortgagors that the non-reimbursed Mortgage Loans will be transferred to the Fund, and that the payments derived therefrom only will release them from their obligations if they are made to the Reinvestment Account opened in the name of the Fund. However, both in the event that the Servicer fails to notify the Mortgagors within five (5) Business Days of receiving the demand, and in the event of the insolvency of the Servicer, it will be the Sociedad Gestora itself, either directly or, as the case may be, through the new Servicer if one has been appointed, who will notify the Mortgagors.

The Seller will bear the expenses of notifying the Mortgagors of the Mortgage Loans, even if the latter are notified by the Sociedad Gestora.

3.4 Explanation of the Flow of Funds

3.4.1 How the cash flow from the assets will meet the Issuer's obligations to the Security holders.

As illustrated in the diagram included in section 3.1 of this Additional Building Block, the cash flow from the assets will serve to fulfil the obligations of the issuer in the following manner:

- a) On the Disbursement Date, the Fund will pay the price of the Participations and of the Certificates issued, with the amount of the issue price received from the Series A1, A2, B, C and D Bonds.
- b) On the Disbursement Date, the Fund will also receive the amount of the Initial Expenses Loan to pay them.
- c) On the Disbursement Date, the Reserve Fund will be provisioned with the amount principal received from the Series E Bonds.
- d) On the Second Business Day prior to the first Payment Date, the Seller will deposit the definitive amount of the Subordinated Loan in the Treasury Account.
- e) On each Collection Date, the Sociedad Gestora, for and on behalf of the Fund, will receive the amounts that the Mortgagors have paid for the principal and interest during each Collection Period. These amounts will be deposited in the Reinvestment Account, accruing an interest rate in accordance with the Guaranteed Interest Rate Deposit Contract (Reinvestment Account), which will cover the

payments of the Fund on each Payment Date, in keeping with the Payment Priority Order.

f) Technical Advance. Taking into account that a portion of the delays in the payment of an instalment by the borrowers may be of a temporary or technical nature, in order to prevent any such delays from negatively affecting the flow of payments to the Bondholders, and in addition taking into account the existence of a 20-day difference between the end of the Collection Period and the Fund Collection Date during which period of time the amounts are collected by the Seller, as servicer of the Mortgage Loans, which belong to the Fund, the Sociedad Gestora will on each Collection Date be entitled to draw, acting on behalf of and for the account of the Fund, a payment advance to be charged against said amounts, which will be deposited in the Reinvestment Account.

The amount of each Technical Advance will be an amount not greater than the amount collected by the Seller, from the Mortgage Loans which it services, for any payments to which the Fund is entitled as holder of the Participations and the Certificates, from the end of the most recent Collection Period until the Collection Date on which the Technical Advance is requested.

g) The Available Resources will be used on each Payment Date to meet the payment obligations of the Fund in accordance with the Payment Priority Order described in section 3.4.6.2. of the Additional Building Block.

3.4.2 Information on any credit enhancements

As a mechanism for credit enhancement in the event of possible losses from unpaid and/or defaulted Mortgage Loans and for the purpose of allowing payments to be made by the Fund in accordance with the Payment Priority Order, a provision for the establishment of the Reserve Fund, the characteristics of which are set forth in section 3.4.2.1. below, has been made.

Similarly, the subordination and the postponement of the Series B, C, D and E Bonds, in the payment of interest and the return of principal which results from their ranking in the Payment Priority Order and in the Liquidation Payment Priority Order, constitute a protection mechanism between the different Series of Bonds.

In order to mitigate the interest rate risk which exists due to the fact that the Participations and the Certificates are subject to variable interest rates based on different index rates and different adjustment periods and payment periods for the variable interest payments established for each of the Series that are issued and paid by the Fund; as well as the risk posed by the fact that, under the regulations for the modification and replacement of mortgage loans, the Participations and the Certificates may be subject to renegotiations in which the agreed interest rate is lowered, the Sociedad Gestora will enter into an Interest Swap Agreement with IBERCAJA, described in 3.4.7.1. of this Additional Building Block and will enter into an Interest Rate Cap Agreement, described in section 3.4.7.3. of the Additional Building Block, with JPMORGAN CHASE.

The Fund will have, in accordance with the provisions of the Guaranteed Interest Rate Deposit Contract, a bank account on behalf of the Fund (the "**Reinvestment Account**"), into which all the amounts that the Fund must receive from the Seller will be paid, on each Collection Date, pursuant to the provisions of section 3.4.4.1 of the Additional Building Block.

3.4.2.1. Reserve Fund

As a security measure and for the purpose of allowing payments to be made by the Fund to the holders of the Series A1, A2, B, C and D Bonds, according to the Payment Priority Order described in section 3.4.6.2 of this Additional Building Block, a Reserve Fund (the "Reserve Fund") will be established.

The Reserve Fund will be initially established on the Disbursement Date, from the amount of the issue of the Series E Bonds, for an amount of seven million euros (€7,000,000).

On each Payment Date, the Resources Available on each Payment Date for that purpose, according to the Payment Priority Order described in section 3.4.6.2. of the Additional Building Block, will be allocated to the Reserve Fund until the required level (the "Required Level") is reached.

On each Payment Date, the Required Level of the Reserve Fund will be the lesser of the following amounts:

- Seven million euros (€7,000,000).
- 1.16% of the Receivable Nominal Balance of the Series A1, A2, B, C, and D Bonds.

Nevertheless, the Required Level of the Reserve Fund must not be reduced in the event that, on a Payment Date, any of the following circumstances exists:

- That the Reserve Fund is not at the Required Level on the previous Payment Date.
- That the Receivable Nominal Balance of the Non-Defaulted Participations and Certificates that are more than 90 days in arrears exceeds 1% of the Receivable Nominal Balance of the Non-Defaulted Participations and Certificates.
- That 3 years have not elapsed since the Incorporation Date of the Fund.

The minimum Required Level of the Reserve Fund must not be less than 0.5% of the original balance of the Participations and the Certificates.

The amounts which make up the Reserve Fund will be deposited in the Reinvestment Account under the terms referred to in section 3.4.4.1. of this Additional Building Block.

3.4.3 Details of any subordinated debt financing

The Seller will grant the Fund a Subordinated Loan and an Initial Expenses Loan, the main terms of which are described below.

3.4.3.1 Initial Expenses Loan Contract

The Seller will grant, in accordance with the provisions of the initial expenses loan contract (the "**Initial Expenses Loan**"), a subordinated loan to the Fund for an amount of up to one million five hundred thousand euros ($\{ 1,500,000 \}$).

The definitive amount of the Initial Expenses Loan will be determined by the Sociedad Gestora on 14 May 2007, when the Lead Managers have notified it, as described in section 4.2.2. of the Securities Note, the definitive underwriting and placement fees applicable to the Bonds of each Series. The Sociedad Gestora will proceed to communicate to IBERCAJA, before 11:00 a.m. (CET) on 14 May 2007, the definitive amount of the Initial Expenses Loan. The definitive

amount of the Initial Expenses Loan will be delivered on the Disbursement Date by means of a deposit into the Treasury Account opened with the Financial Agent. The definitive amount of the Initial Expenses Loan will be documented in the notarised disbursement document.

The amount of the Initial Expenses Loan will be used by the Sociedad Gestora for the purpose of paying the initial expenses of the Fund incurred in the incorporation of the Fund and the issue of the Bonds.

The interest on the Initial Expenses Loan will be calculated based on an annual interest rate, adjusted quarterly, equal to the Reference Interest Rate determined for each Interest Accrual Period plus a margin of 0.75%. This interest will be paid only if the Fund has sufficient liquidity available according to the Fund Payment Priority Order, described in section 3.4.6.2 of this Additional Building Block. The interest will be settled on each Payment Date, and will be calculated on the following basis: (i) the actual effective days in each Interest Accrual Period and (ii) a 360 day year. The payment of such interest will be subject to Payment Priority Order or to the Liquidation Payment Priority Order set forth in sections 3.4.6.2 and 3.4.6.3., respectively, of the Additional Building Block.

The principal of the Initial Expenses Loan will be repaid in 20 equal and consecutive instalments, the first of which will be paid on the first Payment Date (27 August 2007) and the remaining ones on the following Payment Dates, all being subject to the Payment Priority Order or to the Liquidation Payment Priority Order described in sections 3.4.6.2. and 3.4.6.3., respectively, of the Additional Building Block.

The non-confirmation before the start of the Subscription Period of one of the provisional ratings assigned to the Bonds by the Rating Agencies will be construed as grounds for termination of the Initial Expenses Loan Contract.

All of the amounts that are to be paid to the Seller, whether for the payment of accrued interest or for the repayment of principal, pertaining to the Initial Expenses Loan, will be subject to the Payment Priority Order or to the Liquidation Payment Priority Order described in sections 3.4.6.2. and 3.4.6.3., respectively, of the Additional Building Block.

All of the amounts which, as specified in the prior paragraphs, have not been paid to the Seller will be paid on the following Payment Dates in which the Available Resources permit said payment according to the Payment Priority Order established and will be paid in preference to the amounts required to be paid under the Initial Expenses Loan on said Payment Date. The amounts owing to the Seller and remaining unpaid according to the provisions of the prior paragraphs will not accrue default interest in its favour.

3.4.3.2 Subordinated Loan Agreement

The Seller will grant, in accordance with the provisions of the initial expenses loan contract (the "Subordinated Loan"), a subordinated loan to the Fund for a total amount maximum of five million euros (€5,000,000). The definitive amount of the Subordinated Loan will be determined before the second Business Day prior to the first Payment Date. The principal of the Subordinated Loan, which will amount to the definitive amount, will be delivered on the second Business Day prior to the first Payment Date by means of a deposit into the Treasury Account opened in the name of the Fund in the Financial Agent.

The Sociedad Gestora must only assign the amount of the Subordinated Loan to cover the difference, on the Fund's first Payment Date, between the interest accrued on the Participations and the Certificates from the Date of Incorporation until the first Payment Date and the interest received from the Participations and Certificates, prior to the first Payment Date.

Not for distribution in US or to US persons.

The interest on the Subordinated Loan will be calculated based on an annual interest rate, adjusted quarterly, equal to the Reference Interest Rate determined for each Interest Accrual Period plus a margin of 0.75%. This interest will be paid only if the Fund has sufficient liquidity available according to the Payment Priority Order, or to the Liquidation Payment Priority Order described in sections 3.4.6.2. and 3.4.6.3., of the Additional Building Block, respectively. The interest will be settled on each Payment Date, and will be calculated on the following basis: (i) the actual effective days in each Interest Accrual Period and (ii) a 360 day year. The payment of such interest will be subject to Payment Priority Order or to the Liquidation Payment Priority Order set forth in sections 3.4.6.2 and 3.4.6.3. of the Additional Building Block, respectively.

The Subordinated Loan will mature on the Fund Legal Maturity Date. The principal of the Subordinated Loan will be redeemed in twenty consecutive installments, starting on the first Payment Date.

The non-confirmation before the start of the Subscription Period of one of the provisional ratings assigned to the Bonds by the Rating Agencies will be construed as grounds for termination of the Subordinated Loan Contract.

All of the amounts that are to be paid to the Seller, whether for the payment of accrued interest or for the repayment of principal, pertaining to the Subordinated Loan, will be subject to the Payment Priority Order or to the Liquidation Payment Priority Order described in sections 3.4.6.2. and 3.4.6.3., respectively, of the Additional Building Block.

All of the amounts which, as specified in the prior paragraphs, have not been paid to the Seller will be paid on the following Payment Dates on which the Available Resources permit said payment according to the Payment Priority Order or to the Liquidation Payment Priority Order described in sections 3.4.6.2. and 3.4.6.3. of the Additional Building Block, respectively, and will be paid in preference to the amounts required to be paid under the Subordinated Loan on said Payment Date.

The amounts owing to the Seller and remaining unpaid according to the provisions of the prior paragraphs will not accrue default interest in its favour.

3.4.3.3 Subordination of the Bonds

In terms of payment of interest and reimbursement of principal, the Series E Bonds rank after the Series A1, A2, B, C and D Bonds. In terms of payment of interest and reimbursement of principal, the Series D Bonds rank after the Series A1, A2, B and C Bonds. In terms of payment of interest and reimbursement of principal, the Series C Bonds rank after the Series A1, A2 and B Bonds. In terms of payment of interest and reimbursement of principal, the Series B Bonds rank after the Series A1 and A2 Bonds. All pursuant to the Payment Priority Order or the Liquidation Payment Priority Order established, respectively in sections 3.4.6.2 and 3.4.6.3 of the Additional Building Block.

Sections 4.6.1. and 4.6.2. of the Securities Note specify how the interest and principal reimbursement payments of the Bonds of each Series rank in the Fund payment priority order. Should the circumstances causing the pro rata redemption of the Series A, B, C and D Bonds set forth in section 4.9.2.3. of the Securities Note arise, there will be no subordination in the reimbursement of principal of the Bonds of these Series.

3.4.4 Parameters for the investment of temporary liquidity surpluses and a description of the parties responsible for such investment.

The investment parameters for the investment of the Fund temporary liquidity surpluses are set forth in the Guaranteed Interest Rate Deposit Contract (Reinvestment Account) and in the Financial Services Contract that regulates the Treasury Account.

3.4.4.1 Guaranteed Interest Rate Deposit Contract

The Fund will have available through the Seller, in accordance with the provisions of the Guaranteed Interest Rate Deposit Contract, a bank account on behalf of the Fund (the "Reinvestment Account"), into which all the amounts that the Fund must receive from the Seller will be paid. These deposits will be made on the 20th day of each month or, if that day is not a Business Day, on the immediately preceding Business Day while the short term debt ratings of the Seller remain A-1, according to the S&P rating scale, and P-1, according to the Moody's rating scale.

The Seller will provide to the Fund all of the customary services relating to the maintenance and administration of said account, in accordance with normal banking practices. The costs, if any, which are charged for the maintenance of said Reinvestment Account, will be charged directly to the Seller, except for any costs incurred due to the negligence of the Sociedad Gestora.

The Seller will transfer to the Treasury Account, with good value on the second Business Day immediately prior to each Payment Date, the amounts that are deposited in the Reinvestment Account which are necessary to meet the payment obligations specified in the Payment Priority Order set forth in section 3.4.6.2. of this Additional Building Block, that are deposited in the Reinvestment Account, with the Sociedad Gestora giving appropriate instructions for such purposes. These amounts will only correspond to the amounts collected by the Seller for any reason in relation to the Mortgage Loans that it services during the three Collection Periods prior to each Payment Date, the Technical Advance, the Reserve Fund and the yields generated by such amounts.

Whenever the Fund has a positive balance in the Reinvestment Account, such balance will accrue an annual interest rate, adjusted quarterly, equal to the Reference Interest Rate determined for each Interest Accrual Period, at the start of each computable period. Consequently, each deposit will give rise to a computable period, the duration of which will be the number of days between the value date of such deposit (inclusive) to the date on which the transfer to the Treasury Account is made (exclusive).

The balances of the Reinvestment Account will be held in cash. The balances in the Reinvestment Account, in favour of the Fund, cannot be used, in any way, by the Seller to offset any kind of debt concurrently maintained by the Fund or by related third parties, unless the Fund has any amount left over once the Available Resources have been used to meet the payment obligations set forth in the Payment Priority Order or, where applicable, in the Liquidation Payment Priority Order, and prior written approval from the Sociedad Gestora has been obtained.

Should the short-term ratings assigned by the Rating Agencies to the Seller be downgraded below P-1 on the Moody's rating scale or A-1 on the S&P short-term rating scale, or should such ratings be withdrawn, for any reason, by either of the Rating Agencies, respectively, the Seller must find, within the 30 days following such downgrade, and in order to maintain the ratings assigned to each Series of Bonds by Moody's or S&P, and after notifying the latter:

- an entity with the aforementioned ratings that is willing to perform, in the same terms and conditions, the Seller's duties in relation to the Reinvestment Account; or else
- (ii) obtain a first demand bank guarantee, in accordance with S&P's criteria, also from an entity with the aforementioned ratings, that guarantees to the Fund, on simple request from the Sociedad Gestora, the timely payment by the Seller of its obligation to reimburse the amounts deposited in the Reinvestment Account.

Should the Seller's Ratings be downgraded in either case, the revenues from the Participations or Certificates from the Seller must be transferred to the Reinvestment Account every week, although maintaining the quarterly transfer to the Treasury Account.

Up to the second Business Day prior to the Payment Date, when it will be transferred to the Treasury Account for its application, the Sociedad Gestora will transfer the amount by which the balance of the Treasury Account exceeds 20% of the Receivable Nominal Balance of the Bonds, to an account (the "Surplus Account") that will be opened with a bank that has unsecured and non-subordinated short-term debt rated P-1, on the Moody's rating scale or A-1+ on the S&P rating scale, and the maximum return possible will be contracted for its balances. This may differ from the rate contracted with IBERCAJA by virtue of the Guaranteed Interest Rate Deposit Contract (Reinvestment Account).

If the short-term credit rating of this bank where the Surplus Account is opened is downgraded below P-1, on the Moody's rating scale, or A-1+, on the S&P rating scale, the Sociedad Gestora will have a period of 30 days to find a substitute bank that has unsecured and non-subordinated short-term debt rated P-1 on the Moody's rating scale and A-1+, on the S&P rating scale, or a first demand bank guarantee from an entity that has its short-term debt rated P-1 on the Moody's rating scale and A-1+, on the S&P rating scale.

If the Treasury Surplus Account has been opened and, on a Payment Date, after the Available Resources have been applied in accordance with the Payment Priority Order, the amounts of the Fund deposited in the same entity drop below 20% of the Outstanding Nominal Balance of the Bonds, the Sociedad Gestora may close such Treasury Surplus Account. If it has been closed and, at some subsequent point in time, the thresholds that determine that the Treasury Surplus Account must be opened are exceeded, a new Treasury Surplus Account must be opened, pursuant to the provisions of the previous paragraphs. This may be done at the same entity at which the first of them was opened or at another different one, provided that such entity meets the requirements set out in the previous paragraphs.

For these purposes, the Seller will give an irrevocable undertaking to notify the Sociedad Gestora, as soon as such circumstance occurs, throughout the life of the Bond Issue, if the long and short term ratings assigned to it by the Rating Agencies are modified or withdrawn.

3.4.4.2 Treasury Account

The Fund will have available through the Financial Agent, in accordance with the provisions of the Financial Services Contract, a bank account on behalf of the Fund (the "**Treasury Account**").

The Seller will transfer to the Treasury Account, with good value on the second Business Day immediately prior to each Payment Date, the amounts that are deposited in the Reinvestment Account and, where applicable, in the Surplus Account.

The Net Amount of the Interest Swap Agreement payable to the Fund will also be deposited in the Treasury Account, as well as the amounts of the Interest Rate Cap Agreement accrued in its favour.

Likewise, on the Disbursement Date the Seller will deposit the actual amount of the Initial Expenses Loan and, the second Business Day prior to the first Payment Date, the definitive amount of the Subordinated Loan.

All payments from the Fund will be transacted through the Treasury Account, in accordance with the Payment Priority Order or the Liquidation Payment Priority Order, described in sections 3.4.6.2. and 3.4.6.3. of the Additional Building Block, respectively, following instructions from the Sociedad Gestora.

The Treasury Account will not be allowed to have a negative balance to the detriment of the Fund. The balances in the Treasury Account will remain as available cash.

The amounts deposited in the Treasury Account will not accrue interest in favour of the Fund.

In the event that the rating assigned by the Rating Agencies to the Financial Agent's short-term risk, such Financial Agent's current ratings being P-1 in the case of Moody's and A-1+ in the case of S&P, is downgraded below P-1 in the case of Moody's, or below A-1 in the case of S&P, or either of the Rating Agencies withdraws such rating for any reason, within the thirty (30) days following such downgrading the Sociedad Gestora, in order to maintain the ratings assigned to each Series by the Rating Agencies, and after notifying the latter, will put into practice, on behalf of the Fund, one of the options that are described below and are necessary, to permit an appropriate level of collateralisation to be maintained with respect to the commitments derived from the duties as depository of the Participations and the Certificates, paying agent, and maintenance of the Treasury Account:

- (a) Secure similar guarantees or commitments from one or several credit institutions with a Moody's rating of no less than P-1, and with an S&P rating of no less than A-1, in accordance with S&P's criteria, that guarantees the commitments accepted by the Financial Agent;
- (b) Substitute the Financial Agent with an entity that has a Moody's rating of no less than P-1, and an S&P rating of no less than A-1. This new entity will perform the Financial Agent's duties in the same terms and conditions.

For these purposes, the Financial Agent will give an irrevocable undertaking to notify the Sociedad Gestora, as soon as such circumstance occurs, throughout the life of the Bond Issue, if the long and short term ratings assigned to it by the Rating Agencies are modified or withdrawn.

3.4.5 How payments are collected in respect of the assets

3.4.5.1 Frequency of payments

As mentioned earlier, the payments made by the Mortgagors will be deposited in the Reinvestment Account on the 20th day of each month (the "Collection Dates"), or if this is not a Business Day, the immediately previous Business Day and will consist of the income received from the Participations and Certificates during the previous Collection Period, with the

exception of the first Collection Period, which will commence on the Incorporation Date and will end on the last day of the month of May, 2007. The monthly nature of such deposits may be reduced if the ratings of the Seller, as the servicer of the Mortgage Loans:

Should the rating assigned by S&P to the Seller's short term risk be downgraded below A-2, or should S&P withdraw such rating, for any reason whatsoever, the Seller will start depositing such payments every day in the Reinvestment Account opened with the Seller (if the bank guarantee that is referred to in point (ii) of section 3.4.4.1 is still in force) or in the account opened in another bank that is referred to in point (i) of section 3.4.4.1 of this Additional Building Block.

Should the rating assigned by Moody's to the Seller's short term risk be downgraded below P-1, or should Moody's withdraw such rating, for any reason whatsoever, the Seller will start depositing such payments every week in the Reinvestment Account opened with the Seller (if the bank guarantee that is referred to in point (ii) of section 3.4.4.1 is still in force) or in the account opened in another bank that is referred to in paragraph (i) of section 3.4.4.1. In any case, if both ratings are downgraded, the frequency with which amounts are paid the Fund will be the greater of those described above.

For these purposes, the Seller will give an irrevocable undertaking to notify the Sociedad Gestora, as soon as such circumstance occurs, throughout the life of the Bond Issue, if the long and short term ratings assigned to it by the Rating Agencies are modified or withdrawn.

3.4.5.2 Technical Advance

Taking into account that a portion of the delays in the payment of an instalment by the Mortgagors may be of a temporary or technical nature, in order to prevent any such delays from negatively affecting the flow of payments to the Bondholders, and in addition taking into account the existence of a 20-calendar day difference between the end of the Collection Period and the Fund Collection Date during which period of time the amounts are collected by the Seller, as servicer of the Mortgage Loans, which belong to the Fund, the Sociedad Gestora will on each Collection Date be entitled to draw, acting on behalf of and for the account of the Fund, a payment advance (the "**Technical Advance**"), to be charged against said amounts, which will be deposited in the Reinvestment Account.

The amount of each Technical Advance will be an amount not greater than the amount collected by the Seller and not transferred to the Fund, from the Mortgage Loans which it services, for any payments to which the Fund is entitled as holder of the Participations and the Certificates, from the end of the last Collection Period until the Collection Date on which the Technical Advance is requested.

The Sociedad Gestora will calculate the Technical Advance as an amount equals to the sum of the amounts outstanding and not collected by the Seller, during the previous Collection Period, as principal and interest of the Participations and the Certificates in arrears by up to 30 days at the end of the prior Collection Period to the Collection Date on which the Technical Advance is requested, with the limitation indicated in the previous paragraph. The Technical Advance must not exceed the interest and principal of the last instalment of each Mortgage Loan.

On each Collection Date, the Technical Advance obtained on the previous Collection Date is considered deductible in the settlement of the Collection Period that is being settled, and another Technical Advance may be requested and charged to the next settlement.

Such amounts will include any indemnities that the Seller receives as beneficiary of the damage insurance policies and any others amounts to which the Fund is entitled as holder of the Participations, which will be deposited in the Reinvestment Account.

In the event that the Fund is liquidated, the proceeds of the liquidation of the Fund's Assets will be available.

3.4.6.2.2 Available Resources: Application

In general, the Fund's Available Resources, as defined in section 3.4.6.2.1. of the Additional Building Block, will be applied on each Payment Date to the following uses, thus establishing the Payment Priority Order which is listed below (the "Payment Priority Order"):

Pursuant to the provisions of the Payment Priority Order and the Liquidation Payment Priority Order, described in the previous paragraphs, the Sociedad Gestora will pay, and charge to the

Fund, all of the Fund operating expenses, including both the periodic Ordinary Expenses and also the Extraordinary Expenses that accrue throughout its life.

Initial expenses

The estimate of the initial expenses incurred in the incorporation of the Fund and the issue of the Bonds is detailed in section 6 of the Securities Note. The initial expenses will be paid with the amount drawn down from the Initial Expenses Loan and without being subject to the Fund Payment Priority Order.

Expenses throughout the life of the Fund

The Sociedad Gestora will pay, and charge to the Fund, all of the Fund operating expenses, including both the periodic Ordinary Expenses and also the Extraordinary Expenses that accrue throughout its life, and such expenses will be paid in their respective Payment Priority Order or Liquidation Payment Priority Order.

Merely by way of illustration, the Sociedad Gestora will pay the following expenses:

The following are considered ordinary expenses ("Ordinary Expenses"): expenses that may arise from mandatory administrative verifications, registrations and authorisations; the fees payable to the Ratings Agencies for monitoring and maintaining the rating of the Bonds; expenses relating to the Bonds bookkeeping, involving their representation by the book-entry system, their admission to trading on the organised secondary markets and the maintenance of all of the above; the expenses incurred in servicing the Fund; the expenses incurred in the annual financial audit of the Fund; the expenses incurred in the redemption of the Bonds; the expenses incurred in the announcements and notifications relative to the Fund and/or the Bonds; the financial expenses of the Bond Issue, the fee of the Sociedad Gestora and the fee of the Financial Agent. According to the hypotheses set forth in section 4.10 of the Securities Note, it is estimated that the Ordinary Expenses for the first Payment Date of the Fund will amount to Eur. 80,000. It is expected that the annual amount of Ordinary Expenses will drop throughout the life of the Fund due to the fact that the amount of some of the Ordinary Expenses of the Fund are calculated as a percentage of the balance of the transaction, which logically will drop over time.

An estimate of the annual periodic expenses is detailed in section 4.10 of the Securities Note

- The following are considered extraordinary expenses ("Extraordinary Expenses"): any expenses arising from the preparation and formal execution of the amendment of the Articles of Incorporation and of the Contracts, as well as for the execution of additional contracts; the amount of any initial expenses incurred in the incorporation of the Fund and the issue of the Bonds that exceed the principal amount of the Initial Expenses Loan; extraordinary audit and legal advice expenses; any expenses incurred in the sale of the Participations and the Certificates and of the remaining assets of the Fund when it is liquidated; the expenses required for initiating the enforcement of the Mortgage Loans and those arising from the necessary recovery actions; the consideration payable to the servicer of the Mortgage Loans if the Seller is

substituted as the servicer thereof; in general, any other extraordinary expenses incurred by the Fund or by the Sociedad Gestora, on behalf of and for the account of the same.

- Any expenses that are incurred in liquidating the Fund will be considered liquidation expenses (the "Liquidation Expenses").

3.4.6.5 Financial Intermediation Margin

The Seller will be entitled to receive from the Fund a variable and subordinated amount as remuneration for its involvement in the financial intermediation process carried out and that has permitted the financial transformation defining the Fund's activity, the latter's subscription of the Participations and the Certificates, and the rating assigned to each Series of Bonds.

Such remuneration will be settled every quarter on each Payment Date, for an amount equal to the positive difference between the Available Resources of the Fund and the application of items one (1) to eighteen (18) of the Payment Priority Order and of items 1 to 17 in the Liquidation Payment Priority Order (the "Financial Intermediation Margin").

This amount will not be deemed a fee or consideration owed on account of the delivery of a good or provision of a service to the Fund, but instead will be deemed as remuneration for the financial intermediation process carried out by IBERCAJA by issuing the Participations and the Certificates pooled in the Fund.

3.4.7 Other arrangements upon which payments of interest and principal to investors are dependent.

3.4.7.1 Interest Swap Agreement

The Sociedad Gestora will enter into, on behalf of and for account of the Fund, an Interest Swap Agreement (the "Interest Swap Agreement") with IBERCAJA, whose most relevant terms are described below:

Party A: The Sociedad Gestora, on behalf of and for the account of the Fund.

Party B: IBERCAJA

Settlement Dates: Each settlement date (the "Settlement Date") will coincide with the Bond Payment Dates, in other words, the days 26 February, 26 May, 26 August and 26 November of each year, or, if that day is not a Business Day, on the next Business Day. The first Payment Date of the Fund will be 27 August 2007.

"Settlement Periods": the Settlement Periods are the days that actually pass between two consecutive Settlement Dates, including the first one but excluding the last one. Exceptionally, the duration of the first Settlement Period will be equivalent to the number of days actually elapsed between the Incorporation Date (inclusive) and 27 August 2007, (exclusive).

"Interest Computable for the Purposes of the Settlement of the Swap" is the sum of all the amounts of interest of the Participations and Certificates paid by the Mortgagors during the three (3) Collection Periods immediately prior to the current Settlement Date, and that have actually been transferred to the Fund.

Such interest may correspond both to due dates falling in such Collection Periods and to the recovery of unpaid interest that matured beforehand.

This prospectus is a translation into English of the original "Folleto Informativo" drafted in Spanish language and registered with the "Comisión Nacional del Mercado de Valores" (the Spanish Securities Market Commission, "CNMV") on May 8, 2007.

Not for distribution in US or to US persons.

For the first Settlement Date, the period that runs from the Incorporation Date to the last day of the month prior to the first Settlement Date will be considered instead of the three Collection Periods.

Amount Payable by Party A: On each settlement date of the Interest Swap Agreement, Party A will pay an amount equal to the Interest Computable for the purposes of the Settlement of the Swap (the "**Amount Payable by Party A**")

Amount Payable by Party B: On each Settlement Date of the Interest Swap Agreement, Party B will pay an amount (the "Amount Payable by Party B"), equal to the result of recalculating the payments of interest on the Participations and on the Certificates corresponding to the Interest Computable for the purposes of the Settlement of the Swap, by substituting the actual rate applied to each Participation or Certificate with the Party B Interest Rate (as defined below), plus the amount payable, on to the pertinent Payment Date, to the new Servicer as the servicing fee in the event that the Seller is substituted as the servicer of the Mortgage Loans pooled in the Fund.

The "Party B Interest Rate" will be equal to the sum of (i) the Bond Reference Interest Rate for the current Accrual Period, and (ii) a margin that will be applied to the Reference Interest Rate equal to 0.65 % (the "Spread").

Net Amount and termination of the Interest Swap Agreement: Any payments (or collections) that have to be made under the Interest Swap Agreement will be made on each Payment Date for their net value, that is to say, for the positive (or negative) difference between the Amount Payable by Party A and the Amount Payable by Party B (the ""**Net Amount**"). The payments that Party A must make will be made in accordance with the Payment Order Priority set forth in section 3.4.6.2. of this Additional Building Block.

Breaches of the Interest Swap Agreement.

If the full amount payable to IBERCAJA is not paid on a Payment Date, the Interest Swap Agreement may be terminated at the request of IBERCAJA. In the event that a settlement amount is owed, the Fund will, if applicable, assume the obligation to pay the settlement amount specified under the terms of the Interest Swap Agreement, all in accordance with the Payment Priority Order.

The settlement amount will be calculated by the Sociedad Gestora, in its capacity as the Interest Swap Agreement's calculation agent, using the market value of the Interest Swap Agreement.

Notwithstanding the foregoing, except in a permanent situation of alteration of the financial equilibrium of the Fund, the Sociedad Gestora, for and on behalf of the Fund, will endeavour to enter into a new Interest Swap Agreement.

Expiry of the Interest Swap Agreement

The early termination of the Interest Swap Agreement will not in itself constitute a reason for the early expiry of the Fund, or its Early Liquidation, unless the termination occurs in conjunction with other events or circumstances related to the Fund's net worth, producing a substantial or permanent change in its financial equilibrium.

The Interest Swap Agreement will expire on the earlier of (i) the Legal Maturity Date of the Fund and (ii) the date on which one the grounds for the of extinction of the Fund occurs.

Party B will give the following irrevocable undertakings under the Interest Swap Agreement:

- (i) If, at any time throughout the lifetime of the Bond Issue, neither Party B nor any of their Guarantors has the Required First Rating Level ("Breach of the First Rating Level"), Party B will implement one of the following measures within thirty (30) Business Days of such circumstance occurring:
- 1) Find a Substitute with the Required First Rating Level (or else a Substitute that has a Guarantor with the Required First Rating Level).
- 2) Find a Guarantor with the Required First Rating Level.
- 3) Make a deposit consisting of cash or of securities in favour of the Fund in an entity whose non-subordinated and unsecured short-term debt is rated P-1 on Moody's scale, for an amount that does not have a negative impact on the rating of the Bonds by the Rating Agencies.
 - (ii) If, at any time throughout the lifetime of the Bond Issue, neither Party B nor any of their Guarantors has the Required Second Rating Level ("Breach of the Second Rating Level"), Party B, acting diligently, will procure, in the shortest possible time frame, to (A) find a Guarantor with the Required Second Rating Level; or (B) find a Substitute with the Required Second Rating Level (or else a Substitute that has a Guarantor with the Required Second Rating Level).

Until the alternatives described above are implemented, Party B will, within the period of thirty (30) Business Days from the occurrence of the Breach of the Second Rating Level, make a deposit consisting of cash or of securities in favour of the Fund in an entity whose non-subordinated and unsecured short-term debt is rated P-1 on Moody's scale, for an amount that does not have a negative impact on the rating of the Bonds by the Rating Agencies.

The obligations of Party B under sections (i) and (ii) above, as well as the grounds for early termination that are derived there from, will only remain in force as long as the grounds that gave rise to the Breach of the First Rating Level or the Breach of the Second Rating Level, respectively, continue to exist. The amount of the deposit that Party B may have made under sections (i) and (ii) above will be returned to Party B when the grounds that gave rise to the Breach of the First Rating Level or the Breach of the Second Rating Level, respectively, cease to exist.

All costs, expenses and taxes incurred as a result of non-compliance of the above obligations will be borne by Party B.

"Guarantor" means the entity that provides an unconditional, irrevocable and first demand guarantee with respect to the present and future obligations of Party B (the "Guarantee"), and provided that (A) a law firm provides a legal opinion confirming that none of the payments made by such entity to Party A under the Guarantee is subject to deductions or withholdings by or on account of a tax; or (B) the Guarantee stipulates that, if such deduction or withholding exists, the payment made by such entity will be increased by the amount necessary in order for the net payment received by Party A to equals the amount that Party A would have received had the deduction or withholding not existed.

"Substitute" means the entity that is subrogated in the contractual position of Party B in the Interest Swap Agreement or that enters into a new Interest Swap Agreement with Party A, In terms substantially identical to the Interest Swap Agreement (which will be

confirmed by Party A, acting diligently), and provided that (A) a law firm provides a legal opinion confirming that none of the payments made by such entity to Party A is subject to deductions or withholdings by or on account of a tax; or (B) if such deduction or withholding exists, the payment made by such entity will be increased by the amount necessary in order for the net payment received by Party A to equals the amount that Party A would have received had the deduction or withholding not existed. Such entity, in all events, will be deemed Party B in the Interest Swap Agreement or in the new Interest Swap Agreement that is signed.

An entity will have the "Required First Rating Level" (A) in the event that such entity has a Moody's rating for its unsecured and non-subordinated short-term debt, if such rating is P-1 and the Moody's rating for its unsecured and non-subordinated long-term debt is rated A2 or higher, and (B) in the event that such entity does not have a Moody's rating for its unsecured and non-subordinated short-term debt, if the Moody's rating for its unsecured and non-subordinated long-term debt is rated A1 or higher.

An entity will have the "Required Second Rating Level" (A) in the event that such entity has a Moody's rating for its unsecured and non-subordinated short-term debt, if such rating is P-2 or higher and the Moody's rating for its unsecured and non-subordinated long-term debt is rated A3 or higher, and (B) in the event that such entity does not have a Moody's rating for its unsecured and non-subordinated short-term debt, if the Moody's rating for its unsecured and non-subordinated long-term debt is rated A3 or higher.

All costs, expenses and taxes incurred as a result of non-compliance of the above obligations will be borne by Party B.

S&P's criteria

Party B will give an irrevocable undertaking that if, at any time throughout the life of the Bond Issue, the rating of the non-subordinated and unsecured debt of Party B is downgraded to below A-1 for short-term debt on the S&P rating scale, then within a maximum of thirty (30) Business Days from when said circumstances occurred, Party B will implement one of the following options, after notifying S&P, in order to maintain the ratings assigned to each of the Series by S&P:

- (i) to find a third party whose non-subordinated and unsecured debt is rated A-1 or higher on S&P"s short-term rating scale, that will take over its contractual obligations and substitute it in the Interest Swap Agreement or, where applicable, by virtue of a new Interest Swap Agreement, provided that this is not detrimental to affect the rating assigned to the Bonds by S&P;
- (ii) to find a third party that has the same ratings as option (i) above that will guarantee the performance of the contractual obligations of Party B in the Interest Swap Agreement; or
- (iii) make a deposit consisting of cash or of securities in favour of the Fund, in an account opened in another entity which has been assigned a short-term risk rating equal to or higher than A-1 on the S&P rating scale, as a guarantee for the contractual obligations of Party B. The amount will be calculated using the market value of the Interest Swap Agreement, and will be at least the replacement value of the Interest Swap Agreement so as not to impair the rating assigned to the Bonds by S&P.

The market value for the purposes of S&P will be calculated in accordance with the criteria published and updated by S&P from time to time.

Furthermore, if the rating granted to the Bonds is downgraded below BBB for long-term debt or A-2 for short-term debt, on S&P's rating scale, S&P may consider that only options (i) and (ii) above are valid, in which case it will notify the Sociedad Gestora and Party B, and the latter must adopt of one the said options within a maximum of ten (10) Business Days.

The obligations of Party B under sections (i) and (ii) above will only remain in force while the grounds that gave rise to them continue to exist, that is to say, that the rating of Party B is upgraded again to at least A-1 and that the new counterparty to the interest swap, if there is one, agrees to terminate the interest swap agreement. The amount of the deposit that Party B may have made will be returned to Party B under section (iii) above when the grounds that gave rise to the aforementioned rating downgrading cease to exist.

All costs, expenses and taxes incurred as a result of non-compliance of the above obligations will be borne by Party B.

Whatever the case, Party B, the Substitute and/or the guarantor must meet the criteria stipulated by Rating Agencies, in the previous sections.

For these purposes Party B will give an irrevocable undertaking to notify the Sociedad Gestora, as soon as such circumstance occurs, throughout the life of the Bond Issue, if the long and short term ratings assigned to it by the Rating Agencies are modified or withdrawn.

The settlement amount will be calculated by Party B, in its capacity as the Interest Rate Cap Agreement's calculation agent, using the market value of such contract.

Notwithstanding the foregoing, except in a permanent situation of alteration of the financial equilibrium of the Fund, the Sociedad Gestora, for and on behalf of the Fund, will endeavour to enter into a new interest rate cap agreement.

- 2) Find a Guarantor with the Required First Rating Level.
- 3) Make a deposit consisting of cash or of securities in favour of the Fund in an entity whose non-subordinated and unsecured short-term debt is rated P-1 on Moody's scale, for an amount that does not have a negative impact on the rating of the Bonds by the Rating Agencies.

Until the alternatives described above are implemented, Party B will, within the period of thirty (30) Business Days from the occurrence of the Breach of the Second Rating Level, make a deposit consisting of cash or of securities in favour of the Fund in an entity whose non-subordinated and unsecured short-term debt is rated P-1 on Moody's scale, for an amount that does not have a negative impact on the rating of the Bonds by the Rating Agencies.

The obligations of Party B under sections (i) and (ii) above, as well as the grounds for early termination that are derived therefrom, will only remain in force as long as the grounds that gave rise to the Breach of the First Rating Level or the Breach of the Second Rating Level, respectively, continue to exist. The amount of the deposit that Party B may have made under sections (i) and (ii) above will be returned to Party B when the grounds that gave rise to the Breach of the First Rating Level or the Breach of the Second Rating Level, respectively, cease to exist.

interest rate cap agreement that is signed.

An entity will have the "Required First Rating Level" (A) in the event that such entity has a Moody's rating for its unsecured and non-subordinated short-term debt, if such rating is P-1 and the Moody's rating for its unsecured and non-subordinated long-term debt is rated A2 or higher, and (B) in the event that such entity does not have a Moody's rating for its unsecured and non-subordinated short-term debt, if the Moody's rating for its unsecured and non-subordinated long-term debt is rated A1 or higher.

An entity will have the "Required Second Rating Level" (A) in the event that such entity has a Moody's rating for its unsecured and non-subordinated short-term debt, if such rating is P-2 or higher and the Moody's rating for its unsecured and non-subordinated long-term debt is rated A3 or higher, and (B) in the event that such entity does not have a Moody's rating for its unsecured and non-subordinated short-term debt, if the Moody's rating for its unsecured and non-subordinated long-term debt is rated A3 or higher.

All costs, expenses and taxes incurred as a result of non-compliance of the above obligations will be borne by Party B.

S&P's criteria

Party B will give an irrevocable undertaking that if, at any time throughout the life of the Bond Issue, the rating of the non-subordinated and unsecured debt of Party B is downgraded to below A-1 for short-term debt on the S&P rating scale, then within a maximum of thirty (30) Business Days from when said circumstances occurred, Party B will implement one of the following options, after notifying S&P, in order to maintain the ratings assigned to each of the Series by S&P:

- (i) to find a third party whose non-subordinated and unsecured debt is rated A-1 or higher on S&P''s short-term rating scale, that will take over its contractual obligations and substitute it in the Interest Rate Cap Agreement or, where applicable, by virtue of a new Interest Rate Cap Agreement, provided that this is not detrimental to affect the rating assigned to the Bonds by S&P;
- (ii) to find a third party that has the same ratings as option (i) above that will guarantee the performance of the contractual obligations of Party B in the Interest Rate Cap Agreement; or
- (iii) make a deposit consisting of cash or of securities in favour of the Fund, in an account opened in another entity which has been assigned a short-term risk rating equal to or higher than A-1 on the S&P rating scale, as a guarantee for the contractual obligations of Party B. The amount will be calculated using the market value of the Interest Rate Cap Agreement, and will be at least the replacement value of the Interest Rate Cap Agreement so as not to impair the rating assigned to the Bonds by S&P.

The market value for the purposes of S&P will be calculated in accordance with the criteria published and updated by S&P from time to time.

Furthermore, if the rating granted to the Bonds is downgraded below BBB for long-term debt or A-2 for short-term debt, on S&P's rating scale, S&P may consider that only options (i) and (ii) above are valid, in which case it will notify the Sociedad Gestora and Party B, and the latter must adopt of one the said options within a maximum of ten (10) Business Days.

The obligations of Party B under sections (i) and (ii) above will only remain in force while the grounds that gave rise to them continue to exist, that is to say, that the rating of Party B is upgraded again to at least A-1 and that the new counterparty to the Interest

Rate Cap, if there is one, agrees to terminate the Interest Rate Cap Agreement. The amount of the deposit that Party B may have made will be returned to Party B under section (iii) above when the grounds that gave rise to the aforementioned rating downgrading cease to exist.

All costs, expenses and taxes incurred as a result of non-compliance of the above obligations will be borne by Party B.

Whatever the case, Party B, the Substitute and/or the guarantor must meet the criteria stipulated by Rating Agencies, in the previous sections.
