Neither Ibercaja Banco nor any of its directors, managers or employees are obliged, neither implicitly nor expressly, to guarantee that these contents are exact, accurate or complete, to update them or to correct them if they detect any error or omission.

The purpose of this presentation is not to provide financial advice or offer any kind of financial product or service. Ibercaja Banco is not and will not be responsible if any part of this presentation is considered to form the basis of an investment decision. Ibercaja Banco notes that this presentation may contain forward looking statements. It should be considered that such forward-looking statements do not guarantee any future results and are only subjective opinions of Ibercaja Banco in relation to the evolution of its business and as such there may be different criteria, risks, uncertainties and many other relevant factors that may cause it to evolve very differently. In any event, data relating to past performance or profits cannot be relied upon for future performance or profits.

This document has not been submitted to the Spanish Securities Market Commission (Comisión Nacional del Mercado de Valores) for its approval or registration. In any case, it is subject to Spanish law applicable as at the date hereof and is not addressed to any natural or legal person in any other jurisdiction. For this reason, it may not comply with legal requirements of other jurisdictions.

Without prejudice to applicable legal requirements or any other limitations imposed by Ibercaja Banco, it is expressly prohibited any use of this presentation and the distinctive signs or symbols contained therein, including any sort of copy, distribution, transfer to third parties, public communication or transformation, through any mean or medium whatsoever, without prior and express authorization of the respective owners. Breach of this prohibition may constitute an infringement of current laws and may be sanctioned.

In addition to the financial information prepared under International Financial Reporting Standards (“IFRS”), this presentation contains certain alternative performance measures (“APMs”) as defined in the Guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority on 5 October 2015 (ESMA/2015/1415). The APMs are performance measures that have been calculated using the financial information from the Ibercaja Banco Group but that are not defined or detailed in the applicable financial information framework and therefore have neither been audited nor are capable of being completely audited. These APMs are being used to allow for a better understanding of the financial performance of the Ibercaja Banco Group but should be considered only as additional information and in no case as a replacement of the financial information prepared under IFRS. Moreover, the way the Ibercaja Banco Group defines and calculates these APMs may differ to the way these are calculated by other companies that use similar measures, and therefore they may not be comparable.

Customer funds	69,234	4.3%	-1.3%

Customer funds (YTD evolution)

Mn€

Customer funds decrease by 1.3% QoQ or €929m. Excluding the impact of the fall in financial markets, customer funds remain stable (+0.2%).

- ▶ AuM and life insurance products decrease by 3.2% QoQ or €1,066m. The decline is explained entirely by the fall in financial markets. Despite the increase in market volatility there has been no net outflows of customers funds.
- ▶ AuM and life insurance products represent 46.2% of total customer funds.

In YoY terms, customer funds grow 4.3% or €2,842m.

Mutual funds

Stock of mutual funds

%-

Net new money inflows

€m - Source: Inverco

Market share in AuM

%- Ibercaja Pension - Source: Inverco

The stock in mutual funds falls by 3.4% or €669m in the quarter, although it grows 9.1% YoY or €1,581m.

- High resilience in net new money inflows: Ibercaja's advisory model allows for no net outflows during the most volatile periods of the Ibercaja; instead Ibercaja increases its market share in net new money inflows: in 1Q2022 the market share in net new money inflows reached 10.7% vs. 9.1% registered throughout 2021. Since the start of the pandemic, market share in net new money inflows has been 12.8%.

Market share in mutual funds and pension plans remains stable in the quarter.

Risk insurance

New production of risk insurance premiums

Net interest income

Net interest income variation

€m

Quarterly net interest income

€m

Net interest income falls 2.1% YoY or €3m.

Ibercaja expects a recovery in net interest income in the second half of the year:

- The positive dynamics in new lending will drive interest income.
- Additionally, the Entity has greater leverage than the sector to increases in Euribor due to higher weight of the mortgage portfolio (62% of performing loans).

Net fee income

Net fee income variation

Quarterly commissions

Net fee income grows 14.4% YoY or €14m.

- The increase in banking activity and new tariffs boost **banking commissions** by €7m while the growth in AuM in YoY terms translates into growth in **non-banking commissions** of €7m.

Recurring revenues and gross operating income

Recurring revenues variation

Recurring revenues YoY¹

% - 1Q2022 vs. 1Q2021

Recurring revenues

€m

Recurring revenues are up by 5.2% YoY or €12m, the second highest increase among peers.

The diversification of Ibercaja's revenues model allows for a recovery of recurring revenues to pre-pandemic levels.

Gross operating income falls by 8.9% YoY due to the absence of results from trading income.

- Net interest income and net fee income represent 97% of the gross operating income in 1Q2022 and prove the recurrence of Ibercaja's revenues.

¹ Peers are: Bankinter, Caixabank, Sabadell and Unicaja

Operating costs

Operating costs

Mn€

Recurring cost to income ratio

%

Recurring costs decrease 4.6% YoY or €7m.

- In 1Q2022 staff costs fall 10.5% YoY or €10m thanks to the cost savings derived from the 2021-2022 redundancy plan. As of March 2022, there have been 642 departures out of 750 approved, which represents a degree of execution of 86%. The remaining departures will materialise in 2Q2022.

Recurring cost to income ratio improves 6 p.p. to 61%.

Recurring profit before provisions

Recurring profit before provisions variation

Recurring profit before provisions

Recurring profit before provisions amount to €91m (+25.5% vs. 1Q2021).

In 1Q2022, recurring profit before provisions exceeds the levels that Ibercaja generated before the pandemic.

Provisions

Total Provisions

€m

Cost of Risk

%

Total provisions record a drop of 36.4% YoY or €12m. Cost of risk provisions fall by 46.0% YoY or €16m.

- Cost of risk stands at 23 bps vs. 41 bps in 1Q2021 due to the excellent evolution in asset quality.

Ibercaja maintains an unused post-model adjustment of €52m.

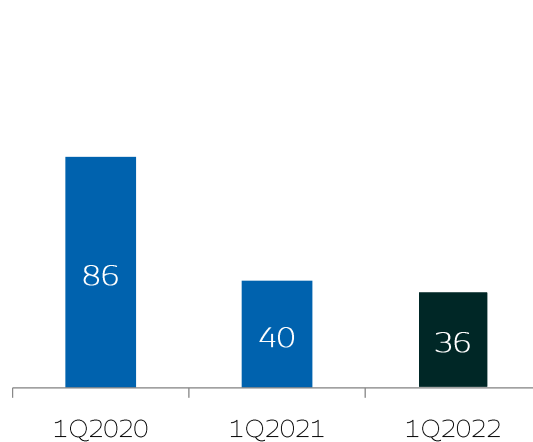

IV

Asset quality, liquidity and solvency

Non-performing assets

Gross NPLs entries

€m

Gross NPAs

€m

NPL ratio evolution vs. sector

% - Sector: credit institutions as of February 2022, Bank of Spain

Doubtful loans continue to fall during the quarter (-7.8% vs. 4Q2021 or €56m) and NPL ratio decreases to 2.1%.

- Ibercaja widens its positive gap in NPL ratio vs. the sector to 220 bps.
- Gross NPLs entries reach a new low (-11% YoY) while recoveries remain at high levels.
- Mortgages moratoria has come to an end this quarter with no material impact on the cost of risk or gross NPLs entries.

Gross NPAs fall by 6.3% in the quarter or €80m (-24.8% vs. 1Q2021) and NPA ratio decreases 27 bps to 3.7%.

Coverage ratios

NPL coverage ratio

NPL coverage ratio vs peers¹

Net NPAs

NPLs coverage ratio continues to improve and reaches 79.0% (+3.7 p.p. in the quarter), the highest among peers.

NPAs coverage ratio improves 1.7 p.p. in the quarter up to 70.5%.

Net NPAs fall by 11.4% in the quarter to €45m (-38.2% vs 1Q2021). The weight over total assets falls to 0.6%.

¹ Peers are: Bankinter, Caixabank, Sabadell ex TSB and Unicaja

Liquidity and ALCO portfolio

LCR and NSFR ratios

% - 1Q2022

ALCO Portfolio

€m

ALCO Portfolio breakdown

% - 1Q2022

Ibercaja maintains a sound liquidity position and shows a strong funding profile.

- ▶ LCR and NSFR ratios stand at 429.8% and 151.8%, respectively.
- ▶ LTD ratio stands at 78.4%.

The Entity increases its ALCO portfolio¹ in the quarter while maintaining a low risk profile.

- ▶ The portfolio is mainly composed of Spanish sovereign debt (67.3%) with an average duration of 5.0 years² and an average yield of 0.4%.
- ▶ 95% of the portfolio is classified at amortised cost.

¹ Excludes insurance activity portfolio.

² Includes interest rate swaps.

Solvency

CET1 Fully Loaded

Capital Total Phased In vs. SREP requirements*

CET1 Fully Loaded ratio, based entirely on the standardised approach, stands at 12.55%, decreasing 16 bps vs 4Q2021 and remains in line with Ibercaja's medium-term target of 12.5%.

- Portfolio valuation adjustments have an impact of -30 bps in capital.
- The Entity accrues a 65% payout for capital calculation in the quarter.

Total Capital Fully Loaded ratio stands at 17.2% (17.6% in Phased-in terms).

MDA distance, which measures the excess capital vs. SREP requirements, stands at 477 bps.

VI

Annex

Moratoria and ICO lending

Outstanding granted moratoria

€m – 1Q2022

Evolution of ICO lending granted

€m – Accumulated amount

As of 1Q2021, outstanding moratoria is residual (€3m, it represents less than 0,01% of gross loans).

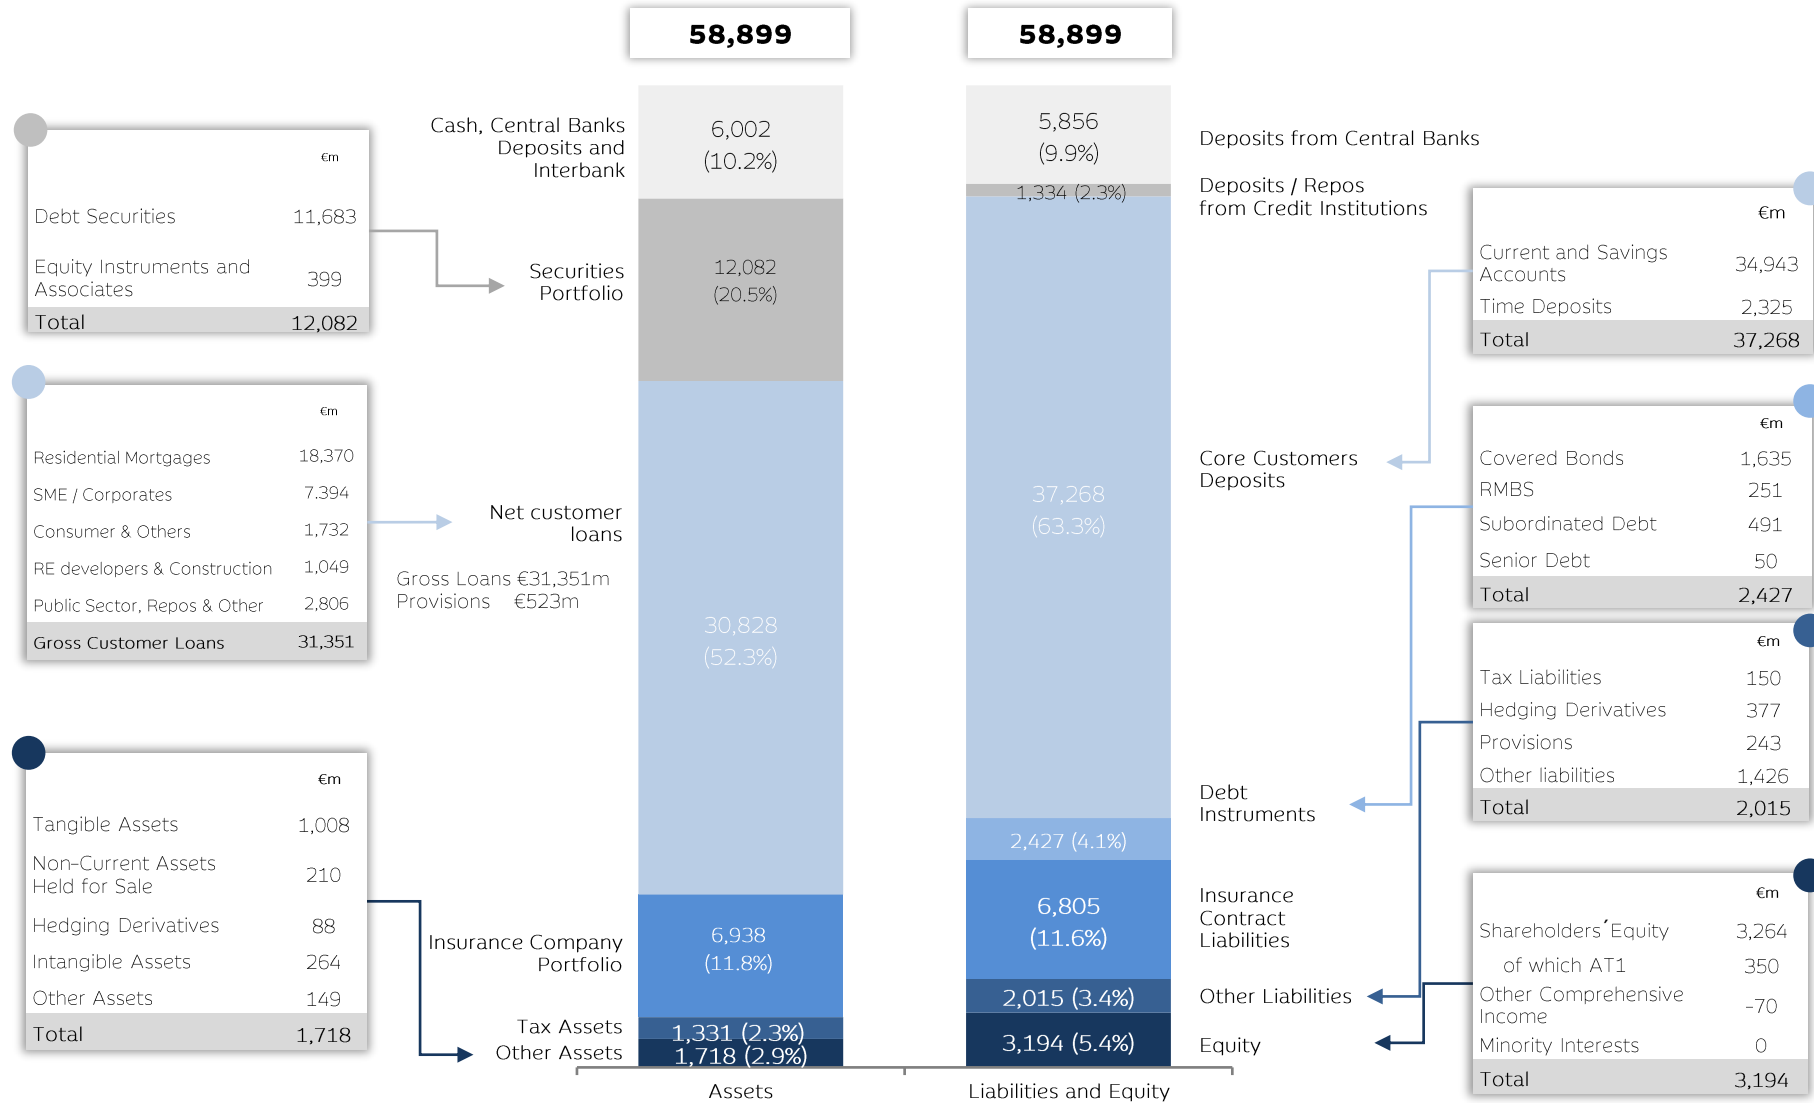

- The impact of this measure on the bank's asset quality has been marginal: only 3.2% has been classified as Stage 3 (€23m)

Ibercaja has granted €1,970m in loans with ICO guarantees. Outstanding ICO financing remains stable (€1.637m).

- 42.5% of ICO loans are already amortising capital.
- 2.4% of ICO financing is considered NPL and 18,5% is classified in Stage 2.

Balance sheet

€m – 31/03/2022

Glossary

Ratio / APM	Definition
Customer Spread	Difference between the average yield on the loan portfolio and the cost of retail deposits (ex. repos and covered bonds)
Recurring Revenues	Net interest income plus net fee and commission income plus net exchange differences
Recurring Costs	Personnel expenses plus other administration expenses plus amortisation and depreciation minus extraordinary expenses (redundancy plan)
Recurring Profit before Provisions	Recurring revenues minus recurring costs
NPL ratio	Doubtful balances in loans and advances to customers divided by gross loans and advances to customers
NPL coverage ratio	Loans and advances to customers impairments divided by balances in loans and advances to customers
Foreclosed Assets coverage ratio	Foreclosed assets impairment losses (since loan origination) divided by gross foreclosed assets
Non-performing Assets (“NPAs”)	Sum of doubtful balances in loans and advances to customers and gross foreclosed assets
Net NPAs	Sum of doubtful balances in loans and advances to customers and net foreclosed assets
NPA ratio	Gross non-performing assets divided by gross loans and advances to customers plus gross foreclosed assets
NPA coverage ratio	Sum of foreclosed assets impairments and loans and advances to customers impairments divided by gross non-performing assets
Cost of Risk	Sum of impairments associated with credit risk and foreclosed assets divided by the average balance of the sum of gross loans and foreclosed assets
Liquid Assets % Total Assets	Total liquid assets divided by total assets. Liquid assets include unencumbered public debt + available & eligible fixed income assets (after ECB haircut applied)
Loans-to deposits ratio	Net customer loans (ex. repos) divided by customer deposits (ex. repos and covered bonds)
Net Stable Funding Ratio	Amount of available stable funding relative to the amount of required stable funding
Liquidity Coverage Ratio	High quality liquid assets divided by net outflows during the following 30 days
ALCO portfolio	Bank’s fixed-income portfolio. Excludes the fixed-income portfolio of the insurance company
